Road Safety Audit Designers Response Report

1 Project Summary

Report Title	Road Safety Audit Designers Response
Date	06/04/2022
Document Reference and Revision:	R04/205465
Prepared by:	Andrew Ward
On behalf of:	Clowes Developments (UK) Ltd
AUTHORISATION SHEET	
Project:	Former Landfill Site, Brockhampton West, Harts Farm Way, Havant
Report Title	Road Safety Audit Designers Response
PREPARED BY	
Name:	Andrew Ward
Signed:	Andrew Ward
Organisation:	Vectos South
Date:	06/04/2021

2 Introduction

GENERAL DETAILS:				
Highway scheme name and road number:	**Harts Farm Way, Havant**			
Date:	April 2022			
Type of scheme:	Commercial			
RSA Stage:	☒ Stage 1	☐ Stage 2	☐ Stage 3	☐ Stage 4
	Interim			
Road Safety Audit Reference:	R04/205465			
Designers Response prepared by:	Andrew Ward			
Design organisation details:	Vectos South			

3 Key Personnel

Overseeing Organisation:	Hampshire County Council
RSA Team:	Alastair Pike/Ian Medd
Design Organisation:	Vectos South

4 Road Safety Audit Decision Log

RSA Problem	RSA Recommendation	Design Organisation Response	Overseeing Organisation Response	Agreed RSA Action
3.1	It is recommended that the uncontrolled crossing be relocated closer to Harts Farm Way where it may be more appropriate in terms of pedestrian desire lines.	Not Accepted	Vectos South	The uncontrolled crossing was located to the rear of the radii to encourage pedestrians to cross at the narrowest point. This mitigates the need to cross the junction at its widest point.
3.2	It is recommended that the appropriate hazard warning tactile paving is installed on the western side of the site access junction to notify NMU's of the start / end of the shared use facility.	Not Accepted	Vectos South	The footway/cycleway on the northern side of Harts Farm Way is proposed to extend into the site. Therefore, the installation of hazard tactile paving to signify the end of the route would mean people accessing the site would need to dismount. It is considered that appropriate signage could be erected to the west of the proposed access junction to notify NMU's of the start / end of the shared use facility. The signage and its location can be agreed at the detailed design stage.
