
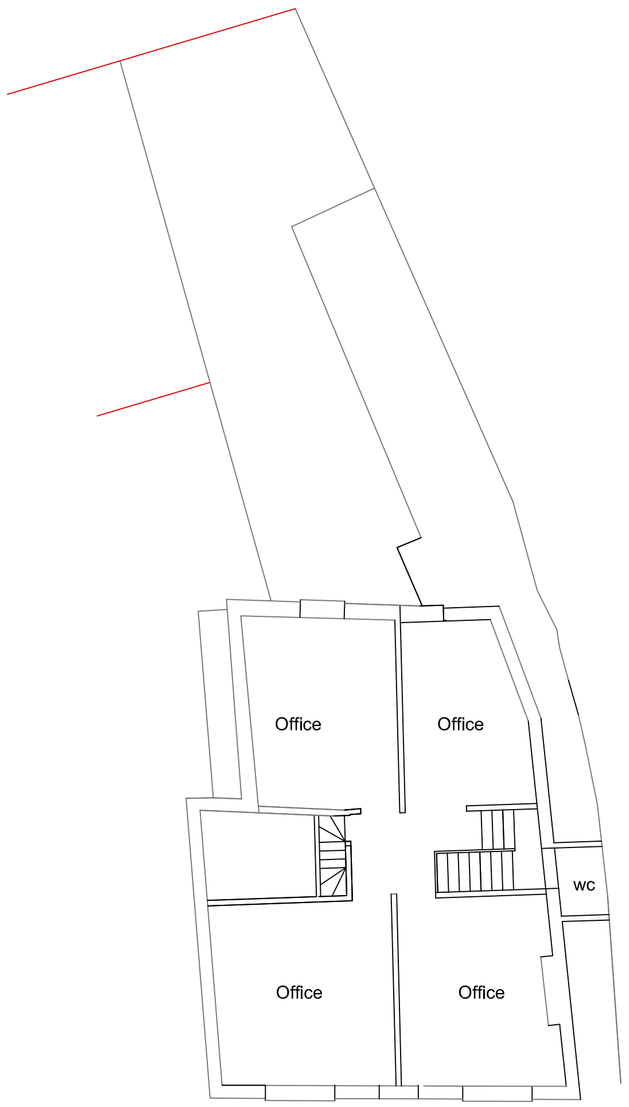
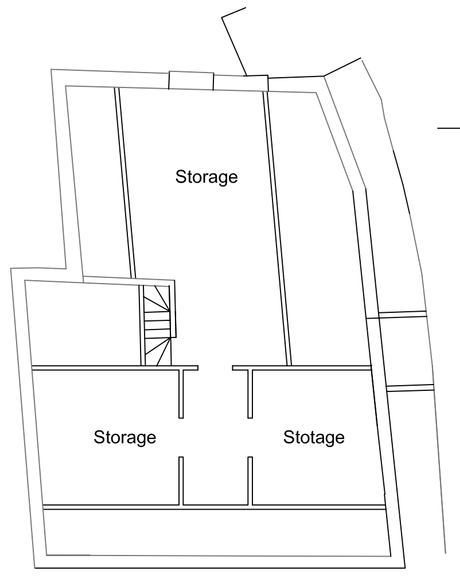
Existing Ground Floor

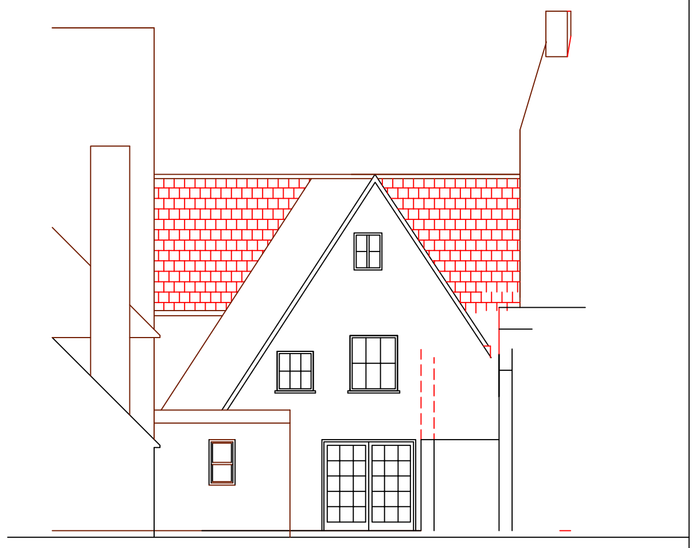


Existing First Floor



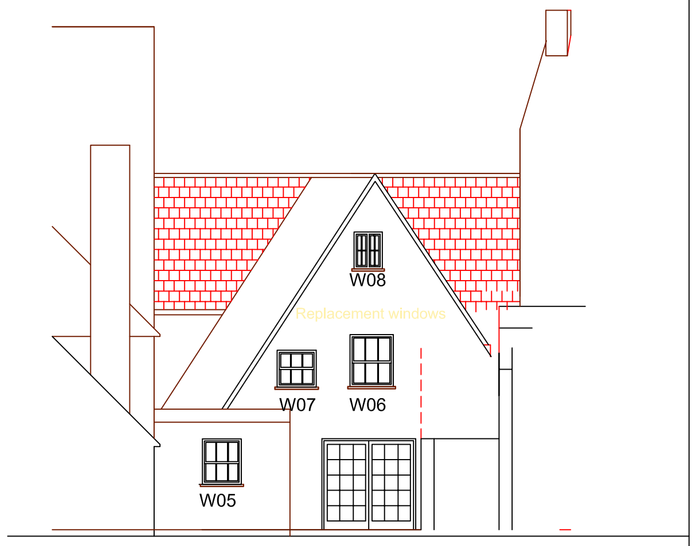
Existing Second Floor

Existing South Elevation

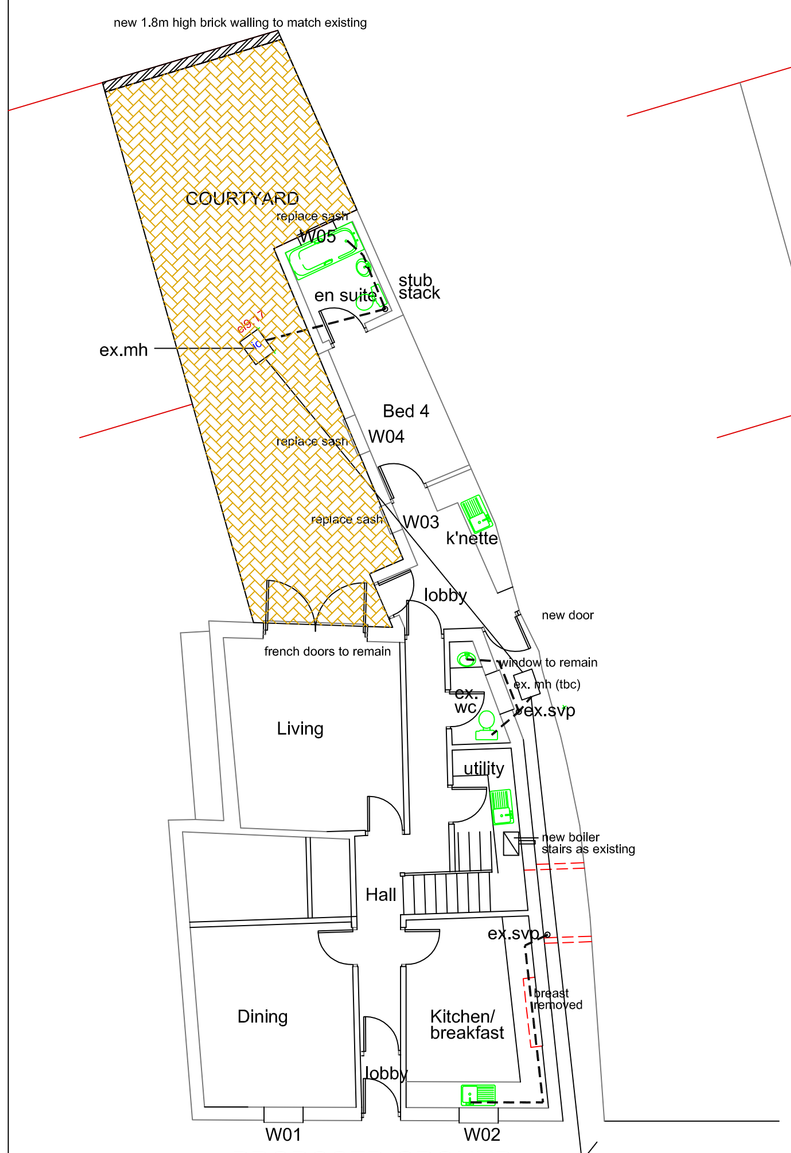


Existing North Elevation

Proposed South Elevation

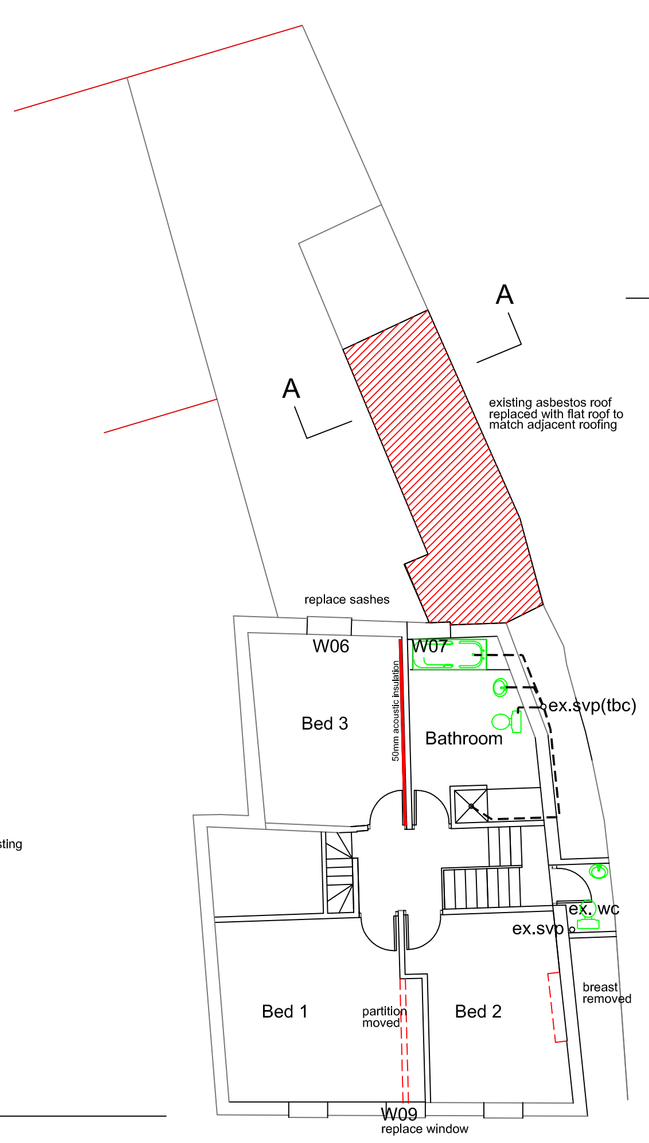


Proposed North Elevation

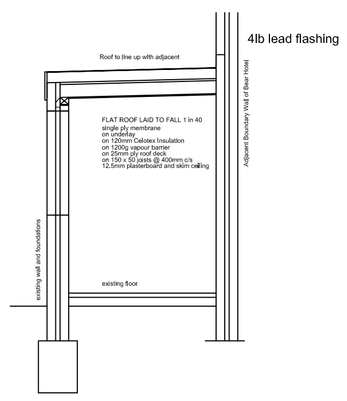


PROPOSED GROUND

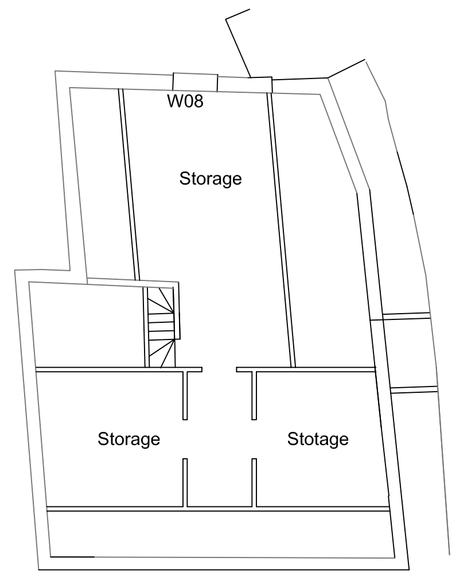
Ground floor windows to be replaced to match first floor sashes



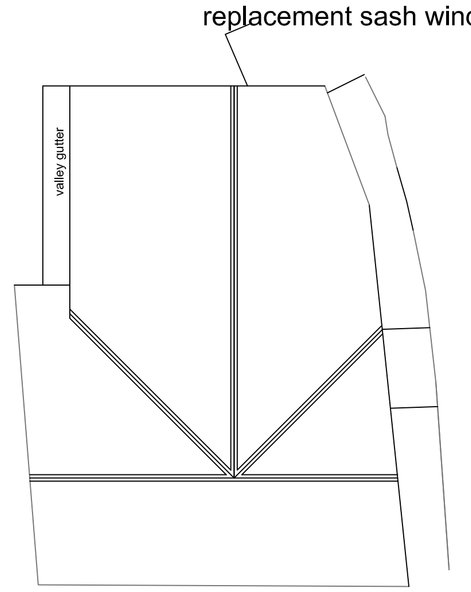
PROPOSED FIRST



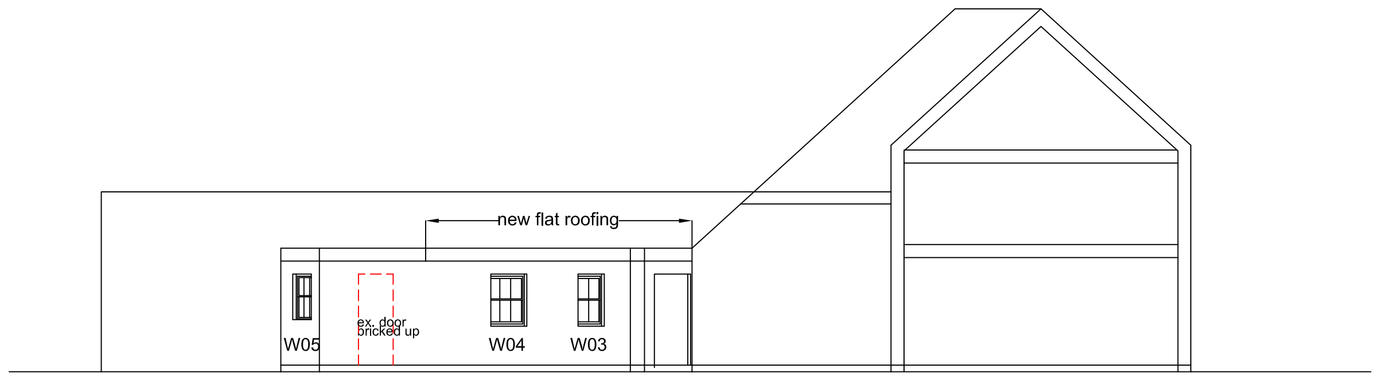
Section A-A 1:50



PROPOSED SECOND



PROPOSED ROOF PLAN



replacement sash windows

Proposed West Elevation

NOTE
The existing building is Grade 11 Listed, and is consequently offers restrictions with respect to access for upgrading:
We cannot offer insulation in the roof skillings without removing all plaster and lathing.
Ground floor insulation would be difficult to install.
Existing windows which remain cannot be double glazed, those being replaced will be double glazed.
We are currently unclear which direction the existing drainage runs but we are not changing this arrangement.
