

Planning Application APP/23/00996 McCormack House, 56A East Street, Havant, PO9 1BS

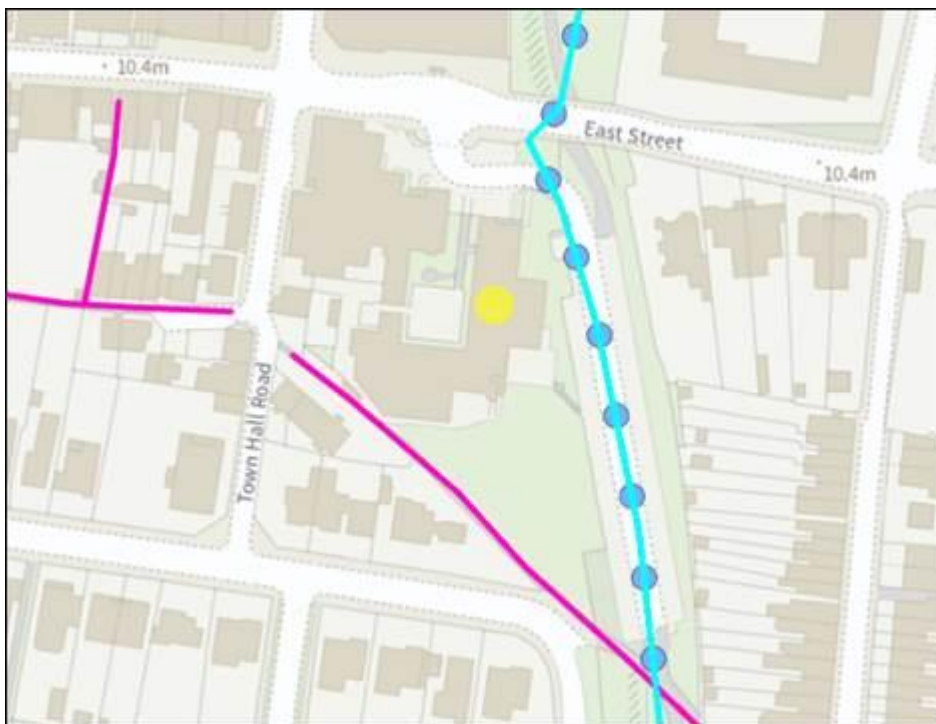

For public viewing as part of the above planning application.

Good afternoon,

I hope you are well.

Following our original consultation response for the above application dated 16th January 2024, it is noted that significant traffic and vehicular use is proposed within the car-park on the site's eastern boundary.

It was previously highlighted that *Havant Footpath 57* runs along the site's southern boundary. However, we wish to further highlight that the extremely well used *Shipwrights Way* Promoted walking route also runs along the site's eastern boundary, and the aforementioned car-park (see below).

As a significant route within the local area, endorsed by Havant Borough Council (HBC) through land owned by them, we trust you will strongly consider the importance of this active travel route for both local residents and visitors far and wide, when deliberating over the

intensification of vehicular use within this confined area and possible obstruction over the Shipwrights Way.

We would like to see alternative arrangements considered that significantly reduce such intensification along this route, or even better, propose revised arrangements that keep both activities separate.

We trust HBC will continue to endorse this extremely popular active travel route and welcome any further questions.

All the best,

Grant Mintram

Countryside Planning Officer
