5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☑ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Oak (T1) - Remove lowest limb on south west side of tree or (reduce as necessary) to a suitable replacement lateral.
Reduce as necessary a further 8 overhanging

lower limbs, those interfering with the conservatory and washing line to the north west, ~~Shed/Garage~~ to the south west and shed to the north east.
Reduce lower limbs to the south east to suitable lateral that overhang neighbouring property to balance tree as necessary.
Reasons for Work:
To reduce shade in garden.
To prevent damage to the roofs of buildings.
To reduce the effects of fouling by wildlife.

8. Trees - Additional Information

Additional information may be attached to electronic communications or provided separately in paper format.

For all trees
A sketch plan clearly showing the position of trees listed in Question 7 must be provided when applying for works to trees covered by a TPO. A sketch plan is also advised when notifying the LPA of works to trees in a conservation area (see guidance notes). It would also be helpful if you provided details of any advice given on site by an LPA officer.

For works to trees covered by a TPO
Please indicate whether the reasons for carrying out the proposed works include any of the following. If so, your application must be accompanied by the necessary evidence to support your proposals. (See guidance notes for further details)

1. **Condition of the tree(s)** - e.g. it is diseased or you have fears that it might break or fall: ☐ Yes ☑ No
   If YES, you are required to provide written arboricultural advice or other diagnostic information from an appropriate expert.
2. **Alleged damage to property** - e.g. subsidence or damage to drains or drives. ☐ Yes ☑ No
   If YES, you are required to provide for:

   Subsidence
   A report by an engineer or surveyor, to include a description of damage, vegetation, monitoring data, soil, roots and repair proposals. Also a report from an arboriculturist to support the tree work proposals.

   Other structural damage (e.g. drains, walls and hard surfaces)
   Written technical evidence from an appropriate expert, including description of damage and possible solutions.

Documents and plans (for any tree)
Are you providing separate information (e.g. an additional schedule of work for Question 7)? ☐ Yes ☑ No

If YES, please provide the reference numbers of plans, documents, professional reports, photographs etc in support of your application. If they are being provided separately from this form, please detail how they are being submitted.

9. Application For Tree Works - Checklist

Only one copy of the application form and additional information (Question 8) is required. Please use the guidance and this checklist to make sure that this form has been completed correctly and that all relevant information is submitted. Please note that failure to supply precise and detailed information may result in your application being rejected or delayed. You do not need to fill out this section, but it may help you to submit a valid form.

Sketch Plan

- A sketch plan showing the location of all trees (see Question 8) ☑

For all trees
(see Question 7)

- Clear identification of the trees concerned ☑
- A full and clear specification of the works to be carried out ☑

For works to trees protected by a TPO
(see Question 8)

Have you:

- stated reasons for the proposed works? ☑
- provided evidence in support of the stated reasons? in particular:
  - if your reasons relate to the condition of the tree(s) - written evidence from an appropriate expert ☐
  - if you are alleging subsidence damage - a report by an appropriate engineer or surveyor and one from an arboriculturist. ☐
  - in respect of other structural damage - written technical evidence ☐
- included all other information listed in Question 8? ☐

Proposed Development: Tree Works

To whom it may concern.

The application for the tree works at the above site address did not meet the mandatory national requirements and Havant Borough Council's national requirements; I have listed below addition information to be added to the existing tree works description already sent in:

A Partial Crown Reduction of 25% on 8 Limbs which are at a height of between **5 meters to 7 meters,** which protrude out from the original shape of the oak tree, these are overhanging the Conservatory & Washing line to North West, Shed /Garage to South West and Shed to North East.
The reducing of these limbs will bring them into line in keeping with the original shape of the remaining branches on the oak.

Crown lift lowest limb 3 meters from the ground on South West side of Tree **or Partial Crown Reduce on this limb by 60%** to a suitable replacement lateral, I was giving a couple of options for the tree officer to decide.

Partial Crown Reduction of 25% at a 4.5 meter height on the lower limb (not the lowest limbs) to the South East that overhang neighbouring property **to balance Tree shape as necessary to bring it in line with the original shape of the tree.**

I hope this meets the requirements for the proposed tree works to move forward.

Kind regards

Chris Bain
