Subject: RE: Shaft 1 RMA

Dear Narinder,

Thank you for your consultation. With regard to the discharge of the conditions, with my concerns addressed in the WSI I am now happy to endorse the WSI and any consequent discharge.

With regard to application 24/00204 I responded to your consultation on 7th May, but sometimes emails do not always arrive and so I attached it below,

Yours sincerely

David

Dear Mr Lakhan,

Planning Application APP/24/00204 Shaft 1 Phase 1 Bedhampton Pumping Station, Meyrick Road, Havant

Thank you for your consultation regarding the reserve matters associated with shaft 1 phase 1 of the Havant Thicket pipeline. The outline planning permission makes provision for archaeological mitigation (conditions 12, 13, 14) as set out in the archaeological management plan (AMP) and any subsequent detailed written schemes of investigation (WSI) and I would rely on those conditions to secure any archaeological mitigation and would not raise any additional archaeological issues in relation to the reserve matter application.

Yours sincerely

David Hopkins

Dear David

Discharge of Conditions 12, 13 and 14 APP/20/00991 Pipeline from Proposed Reservoir Site, Middle Park Way to land adjacent to, West Street, Havan.

Following your comments on the planning conditions the applicant has provided the attached update note (to pick your recommendations) could you let me know if this ok to discharge now. I can take it you have no comments on the RMA application APP/24/00204.

Kind Regards
Narinder
