

The CABRIO® Balcony System fits snugly to the roof when closed, but when opened it becomes an instant balcony in seconds.

It can be combined with Top-Hung roof windows and fixed bottom elements to offer extra views, ventilation and daylight. All of these are a great way to add value and a real wow factor to a property.

Other considerations

Have you also considered?

Adding blinds for decoration or heat protection

Our CABRIO® Balcony System comes with safety glazing as standard, which combines a toughened outer pane with a laminated inner pane to ensure additional safety. The clear and clean coating on the outer pane also keeps the glazing cleaner for longer.

Product features:

- Window opens out into an instant balcony in seconds.
- Stunning addition to your property, bringing in extra daylight and a stunning floor-to-ceiling view.
- Lower section comes with safety glass to reduce the risk of injury.
- Upper section has all the benefits of our standard Top-Hung GPL roof window.
- Can be used as an emergency exit.

Prices starting from £2,112.00 (inc VAT from 1st Feb 2011)

Size and price information

Operation
The upper Top-Hung window opens outwards, whilst the bottom section unfolds into a glazed balcony with side railing.

Ventilation flap
Integrated banister railings automatically appear when the lower window is opened.

Natural pine finish
Warmth of natural pine with long lasting triple coat finish.

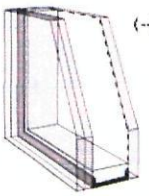
Glazing options



(--73)

--73 Pane
An improved version of our Standard --59 Pane, this glazing comes with a toughened outer and laminated inner pane. This makes it ideal for windows that are positioned above head height. As well as giving you extra protection against breakage, it has improved noise reduction, compared with --59 Pane. It also comes with our clear and clean outer coating, which helps the window stay cleaner for longer. Ideal for high-level applications, which are hard to access.
