RECEIVED

REF : App/11/01211

Dear Mr Oliver,

Following our various meetings and discussions regarding the application for 60 Bracklesham road we have now adjusted the drawings taking into account your recommendations and the various comments of our close neighbours whose well being may be affected.

The major changes are as follows :-

Proposed North Elevation ; To ensure we do not look directly over our neighbours to the North we have added a wall and opaque glass in front of the new door and window ,this will be a total of 1.8 metres high.

Proposed East elevation:
To ensure we do not look over our neighbours to the East we have reduced the size of the balcony and bought it back 2 metres and specified railings and opaque glass.

Proposed South Elevation :
We have removed a window facing our neighbours on the South and are happy for the remaining window to have an opaque finish.We have considerably reduced the size of the new balcony.

We understand from our last meeting that this meets the requirements of your planning dept and satisfies a number of the issues identified by our neighbours .

We now attach the new drawings and a fresh application and look forward to a successful outcome. It is our intention to show these amended plans to our neighbours as soon as possible.

We thank you again for your time and very professional attention in this matter.
