

Dear Mrs Pickup

First Floor, 10 Mengham Ave, Hayling Island APP 15/00828

I am writing in regard to the recent Environmental Health consultation response.

I would like to provide greater detail in regard to the type and size of the proposed AC equipment as requested by Mr Lemagnen of the Environmental Health. To this end please find attached a drawing from the AC supplier showing detailed proposals.

Furthermore I can confirm the following points:

- The units will be secured with Unistut fixings appropriate the installation to minimize vibrations.
- There are already industrial air conditioning units on the roof of the premises for Sainsburys use as a supermarket.
- The AC scheme illustrated represents the most equipment that may be installed on the roof and represents a sizable investment. The likelihood is less equipment will actually be installed.

I trust this is sufficient information at this juncture, however please do not hesitate to contact me if you have any questions.

Kind regards

Roger Lilley
