Havant Borough Council
Parking Supplementary Planning Document

** Garages and Car Ports*
4.09 A single garage/car port should measure a minimum of 3m in width by 6m in length internally and a double garage/car port 6m by 6m internally. This will allow room for a modern car to be parked and still allow room for access down the side of the vehicle. The length is to allow room for storage, particularly cycles.

4.10 A reduced size of garage/car port is unlikely to count as a vehicle parking space as it is unlikely to provide sufficient space for a modern vehicle and/or some storage. "

- NOTES
- The details shown are for design intent purposes only and are subject to further design development with suppliers and sub-contractors.
 - Proposals subject to consultation and approval from Local Authority Planning Department and Building Control (or an Approved Inspector).
 - All setting out dimensions should be checked on site prior to construction and any discrepancies and/or omissions should be reported to the Architect immediately.
 - Do not scale from drawings, any dimensions shown are indicative only and are subject to verification on site.
 - This drawing is to be read in conjunction with all other plans, structural calculations and specifications.
