NEW OUTBUILDING
CORBETT ROAD, WATERLOOVILLE

PHOTOGRAPH OF EXISTING BUILDING

LANDSCAPING

The existing tree and low level hedging will be removed with either the same tree, or a replacement, being planted once the original outbuilding has been demolished, the new outbuilding constructed and new access to the garage court implemented. The remaining land will be returned to grass with additional planting along the rear fence in order to soften its visual impact.

CAR PARKING

Not applicable.
