Dear Sir/Madam

**CONDITION QUERY - LAND RAISING OF THE NORTH END OF THE
RECREATION GROUND USING INERT CLEAN IMPORTED SOIL MATERIAL.
RECREATION GROUND, HOBBY CLOSE, WECOCK, WATERLOOVILLE**

In response to the query ideally testing and removal (if material not suitable) should be done as soon as possible, we would suggest 1 month for testing and 1 month for removal.

Standard turnaround for lab testing is around 2 weeks. So 1 month gives them time to schedule testing, get the results and return them.

We would though add that there probably should be something saying unless agreed otherwise in writing with the LPA to both these time limits. Sometimes there can be delay in labs turnarounds, outside the control of the applicant.

Yours faithfully

Miss Suz Greenwood
