

Soft Landscaping

For details of planting specifications for Beds A, B, C, D and E refer to landscaping bed layout and species specification.
The planting will be at a density of 3 plants/sqm.
The trees will be planted in a standard tree pit and staked with full stakes for the first year. All planting will be in quality grade topsoil with planting compost mixed in around te root balls.
The beds will be mulched with amenity bark chippings to a depth of 75cm.

All planting areas will be maintained on a monthly basis and necessary pruning works undertaken at the appropriate time . Any plant losses in the first year will be replaced.
