Condition 30 – Piling and Foundations

Thank you for providing the requested information on the proposed depths of the Piling Foundations, alongside the Piling Schedule. The Lambeth Group was recorded at the depth of termination of the deepest exploratory borehole at 23.5m. The deepest pile is to be at a depth

of 18m leaving at least 5.5m above the underlying Chalk Aquifer. Portsmouth Water are satisfied with these proposals and therefore recommend the discharge of condition 30.

Kind Regards,

Catchment Management Team
