
Site Address:	Church House, The Pallant, Havant, PO9 1BE		
Proposal:	Replacement of 5No ground floor wooden framed sash windows with timber slim line style double glazing.		
Application Type:	Full Planning Permission		
Application No:	APP/24/00321	Expiry Date:	18/06/2024
Applicant:	Mrs Saunders PCC of St Faiths Havant		
Agent:		Case Officer:	Josephine Lacey
Ward:	St Faiths		

Recommendation: **GRANT PERMISSION**

1 Site Description

The site is located on the corner of The Pallant and Prince George Street within Havant Town Centre. It comprises a two-storey building, comprising several different sections. It is also within the St Faiths Conservation Area.

The property has been Grade II listed by Historic England with the following listing description:

'House (church office). C18, with early C19 alterations. Brick, with a tile roof. Symmetrical north side of 2 storeys and attic, 3 windows. Tile roof with coved plastered eaves, 3 hipped dormers with sashes. Painted brick walling in Flemish bond, rubbed flat arches, plastered 1st floor band and plinth. Victorian sashes. The west gable, with southward extensions, includes decorated cusped bargeboards and a porch of 4 columns, with cornice, panelled frieze, 6-flush-panelled door between side windows. The long east wing has a tile roof, brick dentil eaves, red brick walls in Flemish bond, rubbed flat arches, and Victorian sashes. The plain, brick and tile, stable block at the south-west corner, is used as a shop'.

The frontage to the building is on The Pallant, whilst the rear of the site is enclosed by a historic brick boundary wall and which also includes a car park. The site complex also includes Pallant Hall which is used for community use.

Conservation Officer

Site

The site is located on the corner of The Pallant and Prince George Street within Havant Town Centre. It comprises a two-storey building, comprising several different sections. It is also within the St Faiths Conservation Area.

The property has been Grade II listed by Historic England with the following listing description:

'House (church office). C18, with early C19 alterations. Brick, with a tile roof. Symmetrical north side of 2 storeys and attic, 3 windows. Tile roof with coved plastered eaves, 3 hipped dormers with sashes. Painted brick walling in Flemish bond, rubbed flat arches, plastered 1st floor band and plinth. Victorian sashes. The west gable, with southward extensions, includes decorated cusped bargeboards and a porch of 4 columns, with cornice, panelled frieze, 6-flush-panelled door between side windows. The long east wing has a tile roof, brick dentil eaves, red brick walls in Flemish bond, rubbed flat arches, and Victorian sashes. The plain, brick and tile, stable block at the south-west corner, is used as a shop'.

The frontage to the building is on The Pallant, whilst the rear of the site is enclosed by a historic brick boundary wall and which also includes a car park. The site complex also includes Pallant Hall which is used for community use.

Proposal

Listed building consent for replacement of 5no. ground floor windows.

The proposal is to replace these with like for like, wooden frame, sash windows. It is proposed to replace these with slim line style double glazing (6-4-6mm). The finish will be white painted windows with black architraves as existing.

Legislative and Policy Context:

When assessing the proposal, the following legislation and policy context is taken in consideration.

Section 16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 ("1990 Act") requires local planning authorities to have special regard to the desirability of preserving a listed building, its setting or any features of special architectural or historic interest when considering whether to grant listed building consent.

Section 66 of the Planning (Listed Buildings and Conservation Areas) Act 1990 requires planning authorities, when considering whether to grant planning permission for development which affects a listed building or its setting, to have special regard to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses.

Section 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 requires planning authorities, when considering whether to grant planning permission for development which affects a Conservation Area, to have special regard to the desirability of preserving or enhancing the character and appearance of that area.

NPPF

The revised NPPF (December 2023) sets out in Chapter 16, the core principles relating to development affecting Heritage Assets that local planning authorities should consider in making planning decisions in the following paragraphs: 195 - 214.

Local Plan

Local planning policy comprises the adopted Havant Borough Local Plan Core Strategy 2011, along with the Allocations Plan 2014. With regards to local planning policy, the following policies are relevant:

Policy CS11 of the Core Strategy states that planning permission will be granted for development that:

'Protects and where appropriate enhances the borough's statutory and non-statutory heritage designations by appropriately managing development in or adjacent to conservation areas, listed buildings, scheduled ancient monuments, historic parks and gardens, archaeological sites, buildings of local historic or architectural interest'.

Policy CP16 (1a) of the Core Strategy states 'Planning permission will be granted for development that is designed to a high standard, which helps to create places where people want to live, work and relax. All development should demonstrate that its design:

'Identifies and responds positively to existing features of natural, historic or local character within or close to the proposed development site'.

Policy DM20 of the Allocations Plan states that:

'Planning permission will be granted for development proposals that conserves and enhances the historic assets of Havant. It also states that application which affect, or have the potential to affect, heritage assets are expected to provide a Heritage Statement that:

1. Describe the significance of the asset and its setting, using appropriate expertise and where necessary original survey, at a level of detail proportionate to its significance and sufficient to understand the potential impact of the proposal.
2. Sets out the impact of the development on the heritage assets and mitigation that is proportionate to the impact and the significance of the heritage asset, including where possible positive opportunities to conserve and enjoy heritage assets'.

Assessment

The windows proposed for replacement are located within the historic core of the building at ground floor level. An internal site visit carried out in December 2023 revealed that the windows are beyond reasonable economic repair and currently in very poor condition. As a result, the rooms in which these windows are located, are not usable as the building is used for community use.

The existing windows are timber framed with single glazing. However, whilst they are historic in character, they appear to have been altered in the past including modern frames (very simple with no internal architraves) and some glazing has been replaced with single panes of Perspex, rather than glass.

The proposal is to replace like for like with timber frames in the same sash style as the existing, finished with a white gloss paint. The only alteration would be the use of double glazing instead of single glazing. However, a slimline style of double glazing is being proposed, with a profile of 4-6-4mm, which almost replicates the appearance of single glazing. Furthermore, these windows would not feature any glazing bars, which would make the slimline double glazing even less apparent. Further plans were submitted during the course of the application so that all the relevant details for the replacement windows are now included.

Conclusion

The use of slimline glazing within the replacement windows, would result in small degree of harm, that being less than substantial harm, at the lower end of the scale. However, the benefits of this proposal would be the ability to re-use two of the ground floor rooms for the community use building. It is considered that this benefit outweighs the small degree of harm, for which there is clear and convincing evidence in the form of the need to repair the existing windows.

With regards to the impact of the proposal on the St Faiths Conservation Area, it is considered that the proposal would not result in harm to the significance of the conservation area, as the overall visual contribution made by the building would be improved. The proposal would therefore meet the test set out in Section 72 of the Planning (Listed Buildings and Conservation Areas) 1990 and the relevant national and

local planning policies.

NO OBJECTION

Councillor Daniel Berwick

On the basis of the information available to date, in our view you do not need to notify or consult us on this application under the relevant statutory provisions, details of which are attached.

6 Community Involvement

This application was publicised in accordance with the Council's Code of Practice for Publicity of Planning Applications approved at minute 207/6/92 (as amended), as a result of which the following publicity was undertaken:

Number of neighbour notification letters sent: 12

Number of site notices: 2

Statutory advertisement: 17/05/2024

Number of representations received: 1

Comment	Officer Comment
The windows are in a very poor state and replacing there will greatly improve the appearance of this lovely listed building. It will also improve the street scene in this busy route to the town centre as they are very visible from the footpath.	Noted.

7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Impact upon the character and appearance of the Listed Building and St Faith's Conservation Area
- (iii) Impact upon residential amenity
- (i) Principle of development

7.2 The application site is situated within an urban area where further development is considered acceptable subject to the usual development control criteria. The site is

located within St Faiths Conservation Area and is a Grade II Listed Building and this requires additional consideration under the Planning (Listed Buildings and Conservation Areas) Act 1990.

(ii) Impact upon the character and appearance of the Listed Building and St Faith's Conservation Area

- 7.3 Section 66 of the Planning (Listed Buildings and Conservation Areas) Act 1990 (1990 Act) requires Local Planning authorities to have special regard to the desirability of preserving a listed building, its setting or any features of special architectural or historic interest when considering whether to grant planning permission.
- 7.4 Section 72 of the 1990 Act requires planning authorities when considering whether to grant planning permission for development which affects a Conservation Area, to have special regard to the desirability of preserving or enhancing the character and appearance of that area.
- 7.5 The proposal is for replacement of 5No ground floor windows. The proposal is to replace these with like for like, wooden frame, sash windows. It is proposed to replace these with slim line style double glazing (6-4-6mm). The finish will be white painted windows with black architraves as existing.
- 7.6 The windows proposed for replacement are located within the historic core of the building at ground floor level. An internal site visit carried out in December 2023 revealed that the windows are beyond reasonable economic repair and currently in very poor condition. As a result, the rooms in which these windows are located, are not usable as the building is used for community use.
- 7.7 The existing windows are timber framed with single glazing. However, whilst they are historic in character, they appear to have been altered in the past including modern frames (very simple with no internal architraves) and some glazing has been replaced with single panes of Perspex, rather than glass.
- 7.8 The proposal is to replace like for like with timber frames in the same sash style as the existing., finished with a white gloss paint. The only alteration would be the use of double glazing instead of single glazing. However, a slimline style of double glazing is being proposed, with a profile of 4-6-4mm, which almost replicates the appearance of single glazing. Furthermore, these windows would not feature any glazing bars, which would make the slimline double glazing even less apparent. Further plans were submitted during the course of the application so that all the relevant details for the replacement windows are now included.
- 7.9 The use of slimline glazing within the replacement windows, would result in small degree of harm, that being less than substantial harm, at the lower end of the scale. However, the benefits of this proposal would be the ability to re-use two of the ground floor rooms for the community use building. It is considered that this benefit outweighs the small degree of harm, for which there is clear and convincing evidence in the form of the need to repair the existing windows.
- 7.10 With regards to the impact of the proposal on the St Faiths Conservation Area, it is considered that the proposal would not result in harm to the significance of the conservation area, as the overall visual contribution made by the building would be improved. The proposal would therefore meet the test set out in Section 72 of the Planning (Listed Buildings and Conservation Areas) 1990 and the relevant national

and local planning policies.

(iii) Impact upon residential amenity

7.11 The proposal is not considered to impact the residential amenity of any nearby properties.

8 Conclusion

8.1 The proposal would preserve the listed building, its setting, and any features of special architectural or historic interest it possesses, and would preserve and enhance the character and appearance of the conservation area, and the Listed Building, meeting the tests set out in Sections 66 and 72 of the T&CPA 1990 (Listed Buildings and Conservation Areas) as well as meeting the requirements of Policy CS16 of the HBLP (Core strategy) 2011. The proposed development is acceptable in principle, is appropriate in terms of design and its impact on the character of the area and would have a limited and acceptable impact on the neighbouring properties. On this basis it is recommended for approval.

9 RECOMMENDATION:

That the Head of Place be authorised to **GRANT PERMISSION** for application APP/24/00321 subject to the following conditions

1 The development must be begun not later than three years beginning with the date of this permission.

Reason: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

2 The development hereby permitted shall be carried out in accordance with the following approved plans:

Uploaded 29 Apr 2024	LOCATION PLAN dated 22nd April 2024
Uploaded 29 Apr 2024	SLIDING SASH WINDOW DRAWING
