Comments for APP/25/00137 and APP/25/00080

These mature TPO trees, bordering the DQ footpath, are highly visible and an important part of the landscape and ecosystem. They do not seem to be dangerously overhanging the footpath and really the proposed reductions seem unnecessary and excessive.

Ref the 2 Monterey Cypress (T1 and T2). Even if the tree officer accepts the need for another height reduction couldn't it be limited to 3.5 as in 2021? Any further width reduction will surely unbalance the shape of these trees and so should be refused.

Ref the Yew (T3). It seems a great shame to reduce the size of this attractive mature tree again unless there are compelling reasons so to do.
