

Residents' response to Amazon DPO1 Traffic Monitoring Reports 2 and 3

25 January 2024

1. DOC 9 AND 10 - SECOND OPERATIONAL TRAFFIC MONITORING REPORT

Author: Vectos
Ref: 193664-214/N02
Dated: January 2024
Published: 24 January 2024

2. DOC 9 AND 10 - THIRD OPERATIONAL TRAFFIC MONITORING REPORT

Author: Vectos
Ref: 193664-214/N03
Dated: January 2024
Published: 24 January 2024

The reports listed above are marked by the same shortcomings of data content, quality and presentation found in report 193664-214/N01 published on the HBC public access planning portal on 17 October 2023, with further correspondence published 01 December 2023.

The detailed response to report N01 by Havant Civic Society and the New Lane / Eastern Road neighbourhood watch community, published on the HBC public access planning portal on 19 January 2024, therefore applies equally to reports N02 and N03.

These concerns were raised at the Amazon DPO1 Community Liaison Panel meeting on 22 January 2024 and an action was agreed and documented for the minutes. That action was raised for the attention of Havant Borough Council Planning Services, for review and resolution with the active participation of Hampshire County Council Highways together with members of the DPO1 Community Liaison Panel.

Pending the outcome of that review, it is the view of the residents' groups listed below that the currently published traffic reports (N01, N02 and N03) are not fit for the purpose of satisfying Conditions 4, 9 and 10 of the site planning consent for the reasons detailed in the response published on 19 January 2024.
