Ref:APP/25/00037

We have received a notification of a proposed building extension by our neighbour's Mr A, Williams 21 Warfield Avenue.
We are not entirely happy about this proposed building.
Mr. Williams has lived in the property for approximately two years. The previous owner had already erected a makeshift garage extension without approval which when the garage doors were opened blocked the natural light into (Redacted). (Redacted) about this subject and he also erected a 6' fence approximately 2 ft from (redacted) window which doubled up on the existing 4' fence which was our responsibility.
For this reason we must ask the planning office to rule that the extension must have up and over doors and is also soundproofed if Mr. Williams intends to carry out his work with motorbikes in this new area.
We have lived in our present property for 27 years and have suffered in silence as this problem was ignored and must now/and can be rectified.
