Dear Planning Team,

**4 X MODULAR UNITS AND ASSOCIATED HARDSTANDING (RETROSPECTIVE).
C C N COMMUNICATIONS LTD, NEW LANE, HAVANT, PO9 2NE**

Thank you for consulting the Environment Agency on the above application.

We have reviewed the information as submitted and set out our position below.

Environment Agency Position

We have **no objection** to the proposal as submitted.

The site is within the confined area of the SPZ1 for the Bedhampton and Havant springs. The site is underlain by London clay and chalk aquifer occurs at depth beneath the site. The London clay will protect the underlying chalk aquifer from any contamination in the shallow soils. A principal concern with developments in this location would be any deep foundations, which may compromise the clay above the chalk aquifer. As this application is for porta cabins, it is highly unlikely that there would be any deep foundations.

Please do not hesitate to contact me using the contact details shown below should you have any queries regarding the above information.

Yours faithfully

Mrs Sophie Brown
Sustainable Places Planning Advisor
