1:1 scale section through printed at A3
HIGHLIGHT Mk5 shown on 250mm Fixing Bracket

- Brightness 1410.2 lm/M
- Next Brightness level is 2024.1 lm/M
- Efficacy 127 lm/W
- Consumption 11.04 W/M

Proposed double door & Window as below (or equiv):

Aluminium Commercial Shop Door - Style 21

Our commercial aluminium doors UK are perfect for use in any retail environment, especially those with high footfalls. With their strong construction, secure design, and impressive designs, our commercial retail doors offer style and functionality in equal measures.

CUSTOMISE

You can choose from any RAL colour and all of our doors are manufactured with your exact specifications in mind, including our commercial glass doors with pivot hinges.

We are a supply only business, however do work with trusted installers. You can find out more on our [Local Independent Trusted Installers](#) page.

- Contemporary profile design
- Available in custom RAL colours
- Highly resilient to scuffs and scratches
- Made to measure
- Open in or out / master door left or right
- Robust, durable and style conscious
- 10 year insurance backed [guarantee](#)
- Thermally efficient product

The existing doors will be replaced with single window to match the existing windows.
