Dear Sir/Madam

Racton Water Booster Station – Planning Application

10 December 2024

On behalf of Trant Engineering, AtkinsRéalis is seeking full planning permission for the installation of a new water booster station to connect to Portsmouth Water's water pipeline system.

The proposed water transfer booster station will enable the transfer of water from Farlington Reservoir to Racton Reservoir. This will directly improve supply resilience within the local neighbourhood, as Racton Reservoir supplies customers within the Emsworth, Havant and Leigh Park Area.

The application is submitted to Havant Borough Council for determination under the Town and Country Planning Act 1990.

The application comprises the following documents:

- Planning, Design and Access Statement (including appended Noise Baseline Report).
- Flood Risk Assessment.
- Ecological Impact Assessment.
- Arboricultural Impact Assessment.
- Biodiversity Feasibility Report.
- Biodiversity Metric Information.
- Planning application form.

The following drawings support the planning application:
