

FTXP-N / RXP-N

Product Features

- Onecta app: control your indoor from any location with an app, via your local network or internet.
- Outdoor units are fitted with a swing compressor, renowned for its low noise and high energy efficiency
- Practically inaudible: the unit runs so quietly, you will almost forget it is there.
- Outdoor units for pair application
- Silver allergen removal and air purifying filter captures allergens such as pollen to ensure a steady supply of clean air
- 3-D air flow combines vertical and horizontal auto swing to circulate a stream of warm or cool air right to the corners of even large spaces
- The unit's compact dimensions makes it ideal for renovation projects, especially for above door installation
- Daikin outdoor units are neat, sturdy and can easily be mounted on a roof or terrace or simply placed against an outside wall
- Voice command via Amazon Alexa or Google Assistant to control main functions such as set point, operation mode, fan speed, etc
- Choosing for an R-32 product, reduces the environmental impact with 68% compared to R-410A and leads directly to lower energy consumption thanks to its high energy efficiency
- Seasonal efficiency values up to A++ in cooling and heating
- Space saving contemporary wall mounted design

This unit can be used in combination with following unit(s)

- FTXP-N
- RXP-N

Benefits

- Onecta app**
 Control your indoor climate from any location via smartphone or tablet
- Energy saving during standby mode**
 Current consumption is reduced by about 80% when operating on standby.
- 3-D air flow**
 Combines vertical and horizontal auto-swing to circulate a stream of warm or cool air right to the corners of even large spaces.
- Practically inaudible**
 Practically inaudible: the unit runs so quietly, you will almost forget it is there.
- Econo mode**
 Decreases power consumption so that other appliances that need large power consumption can be used. This function is also energy saving.
- Night set mode**
 Saves energy, by preventing overcooling or overheating during night time.
- Fan only**
 The unit can be used as fan, blowing air without heating or cooling.
- Comfort mode**
 Guarantees draught free operation by preventing that warm or cold air is directly blown on to the body.
- Powerful mode**
 Can be selected for rapid heating or cooling; after the powerful mode is turned off, the unit returns to the preset mode.
- Auto cooling-heating changeover**
 Automatically selects heating or cooling mode to achieve the set temperature.
- Indoor unit silent operation**
 "Silent" button on the remote control lowers the operation sound of the indoor unit by 3dB(A)
- Vertical auto swing**
 Possibility to select automatic vertical moving of the air discharge flaps for efficient air and temperature distribution throughout the room.
- Horizontal auto swing**
 Possibility to select automatic horizontal moving of the air discharge louvre, for uniform air flow and temperature distribution.
- Auto fan speed**
 Automatically selects the necessary fan speed to reach or maintain the set temperature.
- Fan speed steps (5 steps)**
 Allows to select up to the given number of fan speed.
- Dry programme**
 Allows humidity levels to be reduced without variations in room temperature.
- Silver allergen removal and air purifying filter**
 Captures allergens such as pollen and dust mites. The filter suppresses pollen and mites for 99% or more.
- Titanium apatite deodorising filter**
 Decomposes bothersome odours of for example tobacco and pets
- Air filter**
 Removes airborne dust particles to ensure a steady supply of clean air.
- 24 hour timer**
 Can be set to start operation anytime during a 24 hour period
- Infrared remote control**
 Starts, stops and regulates the air conditioner from a distance.
- Auto-restart**
 The unit restarts automatically at the original settings after power failure.
- Self diagnosis**
 Simplifies maintenance by indicating system faults or operating anomalies.
