Dear Madam,

Recreation Ground, Hobby Close, Wecock, Waterloooville

Land raising of the recreation ground at Hobby Close Field using inert clean soil material to solve inherent drainage problems in ground and provision of sports field. Temporary construction routes from Eagle Avenue to the east and north of the site. These works would also allow for new play area and skate park to replace the existing ones on site (the play area and skate park works do not require planning permission). (Approved 4.11.2020). Request to Discharge Conditions 3, 7, 9 & 10 (26.01.2023).

Thank you for reconsulting the Highway Authority on the discharge of Condition 9.

The applicant has provided an updated Materials Management Plan (MMP) and site layout plan to address the comments raised within the Highway Authority's response dated 29th March 2023.

20 deliveries of inert soil are anticipated to site per day, with the delivery hours including the local network AM and PM peak period. As per the Highway Authority's previous response, the delivery times should be amended to avoid the local network peak hours.

Given the number of deliveries to the site which are transporting soil, wheel wash facilities should be provided to prevent any mud or debris being spread onto the public highway. The situation will need to be monitored to ensure that further measures are not required during construction.

All turning movements for delivery vehicles will need to take place on site. It is noted that 2 car parking spaces will be available on site. No overspill parking can occur on

Director of Hampshire 2050
Gary Westbrook

the surrounding road network.

The Highway Authority requires the points above to be addressed before a recommendation can be made on the discharge of Condition 9.

Yours sincerely,

Chris Hirst
