Dear Ms Pickup,

Verge opp 86 Church Road junc of Manor Road, Hayling Island, PO11 0NX

Application for Prior Approval for the installation of a 15m high slim-line monopole, supporting 6no. antennas, 3no. equipment cabinets and ancillary development thereto.

Thank you for your consultation on the above planning application. The Highway Authority wish to make the following comments.

The proposed location for the mast and associated equipment cabinets is on a grass verge adjacent to the Manor Road roundabout. The verge is currently grass with a lighting column and signage.

The Manor Road roundabout has been identified in the emerging and recently withdrawn Havant Local Plan for future junction improvements. The proposed location of the mast and associated equipment cabinets compromises the Highway Authorities ability to deliver any identified junction improvements in the future.

The Highway Authority therefore object to the proposed location of this 5G mast and do not support the installation of any infrastructure which provides design constraints and may prevent the identified junction improvement works coming forward.

It is requested that alternative more appropriate locations away from this junction should be considered.

Yours sincerely,

Director of Hampshire 2050
Gary Westbrook
