

Technical Information for 20ft shipping containers

Please note whilst we have tried to be as accurate as possible, some measurements (notably internal measurements) can vary slightly with the development and modernisation of manufacturing techniques over time. We recommend considering a circa 1 inch (2.5cm) tolerance. Where possible we have given a range on known variations in dims between ranges but we can't guarantee this to be totally accurate for all ranges.

External

Length	20ft (6.058-6.096m)
Width	8ft (2.43-2.45m)
Height	8ft 6ins (2.59m)

Internal

Length	19ft 4ins (5.898m)
Width	7ft 8ins (2.33-2.35m)
Height	7ft 10ins (2.38-2.39m)

Door Opening

Width	7ft 8ins (2.33-2.38m)
Height	7ft 6ins (2.28m)

General

Floor Area	150sqft (13.93m ²)
Cubic Capacity	1172 cu ft (33.18m ³)
Weight	1.8-2.4 tons (1800-2400 Kgs)
Max Cargo (Export only)	21500 Kgs – 28,235 Kgs (Different max cargo weights available)

Fork Pockets

Width	1ft 2ins (360mm)
Height	4 1/2ins (115mm)
Centre to Centre	6ft 9ins +/- 2ins (2050mm +/- 50mm)
