Appendix C Travel Plan Implementation Strategy
Appendix D Cycle Routes
Appendix E Public Transport Routes and Timetables

1 Introduction

1.1 This document sets out a proposed framework for travel planning for the proposed development at Land to the south of South Downs College, Waterlooville. This document will provide a strategy for the introduction of a package of measures aimed at managing multi-modal access to the scheme. This focuses on limiting the number of car trips and promoting alternative sustainable travel options. The location of the proposed development is shown on Figure 1.1 below:

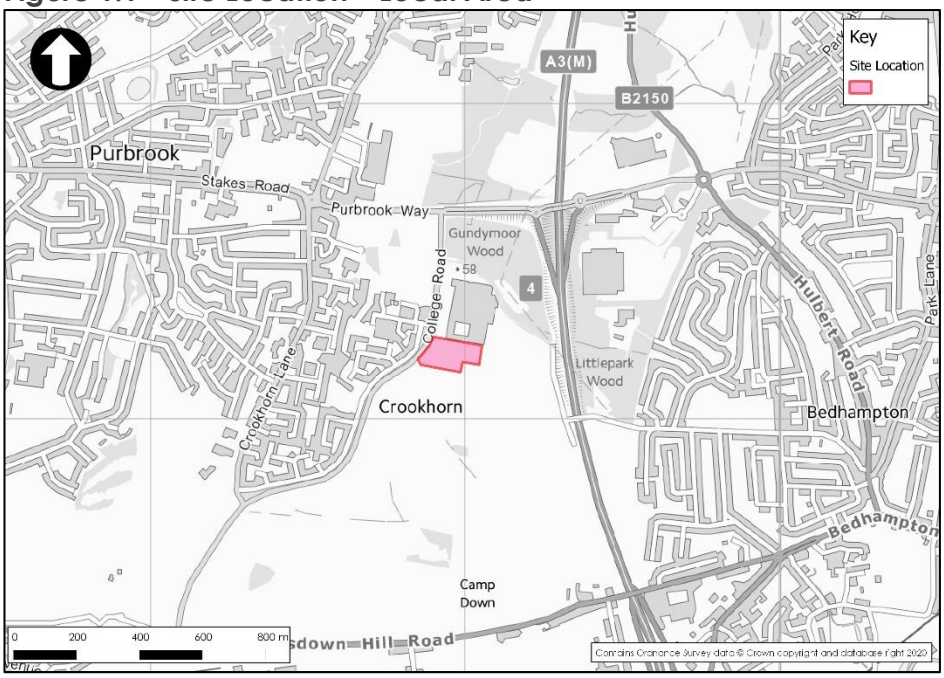

Figure 1.1 - Site Location – Wider Area

1.2 The site was identified in 2018 within the Draft Havant Borough Local Plan 2036 as site '*H45 | Former South Downs College Car Park*' for potential development. The development proposals comprise 102 residential dwellings, with associated vehicular and pedestrian access. The entire development will be offered as affordable housing. The masterplan is included within Appendix B.

1.3 The proposed site is located within the town of Waterlooville, Hampshire. The location of the proposed site in relation to its surroundings is shown on Figure 1.1 below:

Figure 1:1 - Site Location – Local Area

1.4 The site is bordered to the north by the 'South Downs' campus of Havant and South Downs College (HSDC). To the east and south, the site is bordered by greenfield land. To the west, the site is bordered by College Road.

1.5 This Framework Travel Plan has been prepared in conjunction with a comprehensive Transport Assessment and should be read in parallel with that document. In addition, the Framework Travel Plan should be read in conjunction with the Travel Plan Implementation Strategy (TPIS), dated 25th May 2023, included with this document at Appendix C.

1.6 This Framework Travel Plan forms part of the Sustainable Transport Strategy for the development that provides measures to facilitate and promote the take-up of walking, cycling and public transport as the mode of first choice for journeys to/from the development.

1.7 The developer, Places for People, is committed to maximising opportunities for sustainable travel, and this is reflected in the design ethos employed in the site masterplanning process, their commitment to deliver sustainable transport connectivity to the surrounding neighbourhood and the measures contained within this travel plan.

Places for People illustrate their commitment to sustainable travel in the following statement:

> "Places for People are committed to sustainability in their new residential developments by reducing carbon emissions, providing climate resilience, minimising biodiversity loss, using resources which are sustainably and responsibly acquired, and engaging with our customers and colleagues to promote sustainability across the company. This is evident in our 'Environmental Sustainability Strategy, 2023."

1.8 It is anticipated that the implementation of a full operational Travel Plan, prepared in line with this framework, will be secured via planning condition.

1.9 This Framework Travel Plan has been written with reference to Hampshire County Council Guidance '*Write a Travel Plan*'[1], and against the Hampshire County Council Environment Department document '*A guide to development related Travel Plans*'[2].

2 Policy & Background

Policy & Guidance

2.1 Paragraph 111 of the National Planning Policy Framework sets out that all developments which generate significant amounts of transport movement should be required to provide a Travel Plan.

2.2 The National Planning Practice Guidance 'Travel Plans, Transport Assessments and Statements' states that in determining whether a Travel Plan will be needed for a proposed development, local planning authorities should take into account the following considerations:

- *the Travel Plan policies (if any) of the Local Plan;*
- *the scale of the proposed development and its potential for additional trip generation (smaller applications with limited impacts may not need a Travel Plan);*
- *existing intensity of transport use and the availability of public transport;*
- *proximity to nearby environmental designations or sensitive areas;*
- *impact on other priorities/ strategies (such as promoting walking and cycling);*
- *the cumulative impacts of multiple developments within a particular area;*
- *whether there are particular types of impacts around which to focus the Travel Plan (e.g. minimising traffic generated at peak times); and*
- *relevant national policies, including the decision to abolish maximum parking standards for both residential and non-residential development*

2.3 The guidance defines the primary purpose of Travel Plans as:

"to identify opportunities for the effective promotion and delivery of sustainable transport initiatives e.g. walking, cycling, public transport and tele-commuting, in connection with both proposed and existing developments and through this to thereby reduce the demand for travel by less sustainable modes…they should not be used as way of unfairly penalising drivers."

2.4 In relation to its contents, the guidance goes on to explain that:

> *"Travel Plans should identify the specific required outcomes, targets and measures, and set out clear future monitoring and management arrangements all of which should be proportionate. They should also consider what additional measures may be required to offset unacceptable impacts if the targets should not be met. Travel Plans should set explicit outcomes rather than just identify processes to be followed … They should address all journeys resulting from a proposed development by anyone who may need to visit or stay and they should seek to fit in with wider strategies for transport in the area."*

2.5 The guidance also recommends that:

> *"It is often best to retain the ability to establish certain elements of the Travel Plan or review outcomes after the development has started operating so that it can be based upon the occupational and operational characteristics of the development."*

2.6 This document will provide a basis for the residential travel plan.

2.7 The framework that follows in this section of the report draws upon the analysis of travel patterns set out in the accompanying Transport Assessment and establishes the principles for how the full Travel Plan(s) will be structured and implemented.

Hampshire County Council – A Guide to Development Related Travel Plans (2009)

2.8 HCC published this guidance document to assist in preparing Travel Plans for local projects. The document defines the purposes of a travel plan as:

> 1. *Ensuring that development takes place in locations and in ways that minimise the impact of this additional demand;*
> 2. *Increasing accessibility and ensuring that opportunities are provided for people to travel to and from the site in a variety of ways;*
> 3. *Reducing dependence on the use of the car.*

2.9 The document details the objectives and benefits of a Travel Plan, the key steps involved in producing a Travel Plan, and the criteria required for a plan to be accepted.

2.10 The document includes guidance on how to manage the travel plan and ensure that the recommended measures are implemented. This includes the activities and responsibilities of a Travel Plan Co-ordinator. This guidance was used to inform Section 5 of this report.

Hampshire Local Transport Plan (LTP) – Long-term Strategy 2011-2031

2.11 The Hampshire Local Transport Plan is a two part plan, setting out the vision, goals, objectives and policies for transport up to 2031. The vision of the Long Term Strategy is summarised below:

> *The starting-point for Hampshire County Council is that a Local Transport Plan (LTP) is not only about transport, it is about helping people maintain their quality of life and go about their daily business…*
>
> *…It is the Council's role to organise its own resources, make the best use of its powers, and work with a wide range of partner organisations, so that whatever happens in their lives people can:*
>
> - *reliably get to the places they need to go;*
> - *choose how, when (and whether) to travel;*
> - *travel safely, for themselves and others;*
> - *if possible, enjoy their journey.*

> *The Council also works with others where it can to contribute towards the health and prosperity of the places where people live and work, so that transport:*
>
> - *respects and protects the physical quality of places;*
> - *serves places' economic needs;*
> - *minimises carbon emissions and the impact of climate change;*
> - *is fully integrated with other areas of policy affecting places (for example, economic development, energy and land-use planning);*
> - *helps places be sustainable and socially connected.*

2.12 There are a number of Policy Objectives contained in Hampshire LTP: 2011-2031 established with the view to meeting this vision. Those that are of particular relevance to the proposed residential development are summarised below:

> ***Policy Objective 1 -*** *Continue to work to improve road safety through targeted measures that deliver reductions in casualties, including applying a speed management approach that aims to reduce the impact of traffic on community life and promote considerate driver behaviour.*
>
> ***Policy Objective 4:*** *Work with bus and coach operators to grow bus travel, seek to remove barriers that prevent some people using buses where affordable and practical, and reduce dependence on the private car for journeys on inter- and intra-urban corridors;*
>
> ***Policy Objective 7 -*** *Ensure that travel from home to school affordably serves changing curriculum needs, underpins sustainable schools and maximises individual opportunities for education and training.*
>
> ***Policy Objective 11*** *- Reduce the need to travel through encouragement of a highspeed broadband network, supporting the local delivery of services and in urban areas the application of 'Smarter Choices' initiatives.*
>
> ***Policy Objective 12*** *- Invest in sustainable transport measures, including walking and cycling infrastructure, principally in urban areas, to provide a healthy alternative to the car for local short journeys to work, local services or schools; and work with health authorities to ensure that transport policy supports local ambitions for health and well-being.*

Adopted Havant Borough Local Plan

2.13 The adopted Havant Local Plan is made up of two main documents: the Core Strategy (2011) and the Allocations (2014). This plan will remain in place until the new Havant Borough Local Plan is adopted.

2.14 The development site is not included in the Allocations (2014) document of the adopted local plan, since the local plan was prepared before the site became available.

2.15 Policy DB12 'Mitigating the Impacts of Travel' outlines the necessity of travel plans within Havant Borough for new development. The policy is as follows:

DM12 Mitigating the Impacts of Travel

New developments will be required to mitigate their travel impact, including the environmental impacts of travel (such as noise, air and visual pollution) and impacts on amenity, health and climate change by ensuring that, where relevant, the following criteria are met:

1. **Adequate provision is made for integrated and improved transport infrastructure or appropriate mitigation measures, through direct improvements and S106 contributions in accordance with the Hampshire County Council Transport Contributions Policy.**
2. **The submission of a transport assessment and travel plan alongside any planning application on proposals for major development or where a proposal is likely to have significant transport implications.**
3. **The submission of a transport statement must accompany planning applications to explain changes to travel demand.**
4. **A bond is provided which will be used to mitigate negative travel impacts of the development, should the travel plan fail to achieve its targets. This bond will be held by the relevant local transport authority.**
5. **In relation to outline planning applications, a framework for the preparation of travel assessments and travel plans will be submitted with the planning application**

2.16 Travel Plans are therefore a requirement by Havant Borough Council for '*major development or where a proposal is likely to have significant transport implications*'.

2.17 The threshold for a transport assessment and travel plan to be produced is detailed in Appendix 5, Table B of the adopted Local Plan, which details that for residential land use, any development above 50 units requires a Transport Assessment and Travel Plan.

Havant Borough Submission Local Plan (2018-2036)

2.18 The new local plan was submitted for examination to the Secretary of State for Housing Communities and Local Government on 12 February 2021. The site is allocated in policy H45 of the Submission, listed as '*H45 | Former South Downs College Car Park*'.

2.19 Policy IN3 '*Transport and Parking in New Development*' replaces policies DM11 and DM12 from the adopted Local Plan. The policy states that development should be permitted where:

A Travel Plan is provided in support of a planning application where appropriate in relation to the scale and type of development.

2.20 Policy H45 does not require a Travel Plan to be submitted in order for development to be permitted. However, since the number of dwellings has since increased to above 100, in line with best practice, a Framework Travel Plan has been produced. The purpose of a Travel Plan is stated later in Policy IN3:

The primary purpose of a Travel Plan is to identify opportunities for delivering sustainable transport initiatives and for avoiding unnecessary travel, so as to reduce the demand for travel by less sustainable modes. Travel Plans can therefore play an effective role in taking forward those mitigation measures which relate to on-going occupation and operation of the development.

Havant Borough Council Parking Supplementary Planning Document (SPD)

2.21 The standards formulated in the Residential Parking and Cycle Provision SPD were adopted by Havant Borough Council (HBC) in July 2016. The document sets out the HBC off-street parking standards relating to new development in the Borough. The standards also take account of locations where cycling and walking should and can be encouraged and in these areas, a lesser provision of car parking is required.

2.22 The document also sets out guidance for electric vehicle charging provision:

- *Where possible, garages and car ports should have a home charging point or electric socket.*
- *Electric charging points and parking for mobility scooters should be provided in new residential developments in a convenient location at ground floor level where possible*

2.23 The standards formulated in the Residential Parking and Cycle Provision SPD were adopted by Havant Borough Council (HBC) in July 2016. The document sets out the HBC off-street parking standards relating to new development in the Borough.

2.24 The standards also take account of locations where cycling and walking should and can be encouraged and, in these areas, a lower provision of car parking might be acceptable. No specific reduction parameters are cited, with any reduction so granted agreed on a case by case basis.

2.25 The document also sets out guidance for electric vehicle charging provision:

- *Where possible, garages and car ports should have a home charging point or electric socket.*
- *Electric charging points and parking for mobility scooters should be provided in new residential developments in a convenient location at ground floor level where possible*

2.26 Havant parking standards are as follows in Tables 2.1 and 2.2.

Table 2.1 – Minimum Cycle Parking Requirements (HBC)

Size of Dwelling	Units	HBC Requirements (long stay cycle parking)	
		Spaces/ Unit	Spaces
1 bed flat	11	1	11
2 bed flat	32	2	64
2 bed FOG	3	2	6
2 bed house	20	2	40
3 bed house	25	2	50
4 bed house	11	2	22
Visitors	20% of long-term cycle parking standard		39
TOTAL	**102**		**232**

2.27 The parking provision required by HBC depends on whether parking spaces are allocated or unallocated. The indicative requirements for allocated and unallocated parking space provision are found in Table 4A and 4B of the parking SPD respectively. The resulting parking provision required for the development is represented below in Table 1.2:

Table 2.2 – Minimum Car Parking Requirements (HBC)

Size of Dwelling	Units	Unallocated		Allocated	
		Spaces/ Unit	Spaces	Spaces/ Unit	Spaces
	11	0.9	9.9	1	11
2 bed flat	32	1.3	41.6	2	64
2 bed FOG	3	1.3	3.9	2	6
2 bed house	20	1.3	26	2	40
3 bed house	25	1.9	47.5	2	50
Visitors	An additional 20% of total car parking provision				

CIHT's 'Guidelines for Providing Journeys on Foot' (2000)

2.28 The Chartered Institution of Highways and Transportation (CIHT) document sets out what a Travel Plan refers to and what it should include. The document defines a Travel Plan as '*an umbrella term for Green Transport Plans, Commuter Plans, School Travel Plans and similar plans which seek to improve the efficiency and reduce the environmental impact of travel associated with a business organisation'*. The document outlines various means that may be taken to make journeys on foot an attractive alternative to the passenger car.

2.29 With reference to residential areas, the document states that '*walking helps develop community life and is also part of a surveillance process that aids security'*.

2.30 The document states that whilst lower speed limits than 30mph should be applied selectively, school and residential areas should be considered first for reductions in speed limit.

2.31 In order to '*promote more sustainable residential environments'*, local planning authorities are required to '*promote development that is linked to public transport; mixed use development; a greener residential environment; greater emphasis on quality and design places for people; and the most efficient use of land'*.

CIHT's 'Buses in Urban Developments' (2018)

2.32 The CIHT document 'Buses in Urban Developments (2018)' goes into more detail on the benefits of providing high quality public transport, as well as methods of implementation.

2.33 This document provides useful guidance on hard infrastructural measures used to deliver good public transport, but no guidance within the context of travel plans aside from recommending they be used to limit traffic by encouraging more sustainable means of travel than private car.

CIHT's 'Planning for Walking' (2015)

2.34 Planning for Walking sets out the health, economic, and environmental benefits of walking rather than using motorised transport.

2.35 It cites a number of obstacles to walking, notably:

- A poor quality pedestrian environment
- Inadequate pedestrian safety
- Inadequate personal security

2.36 The document goes on to note at 6.3 that most people will only walk if their destination is less than a mile away, referring to 'walkable neighbourhoods' which have an 800m catchment zone.

2.37 'Planning for Walking' sets out a range of measures which could assist in mitigating the obstacles to walking, including the provision of shared road space.

2.38 Section 7 of the document sets out how walking can be promoted through the Travel Planning process, as follows:

> The travel plan process may be centred on an activity centre, such as a school, a workplace, or a hospital; on individuals, through Personal Travel Plans; or on a complete area, as in the Sustainable Travel Towns. In each case, the process involves identifying barriers to the use of sustainable travel modes, followed by a programme of information and persuasion to encourage their use, plus relatively low-cost investments to reduce or remove the barriers. These investments can include improvements to pedestrian infrastructure, including safer road crossings, provision of cycle racks, bus shelters, seats, real-time information, priority parking for car sharers and, where appropriate, support for improved public transport, at least for a limited period.

Manual for Streets

2.39 Manual for Streets was published by the Department for Transport in 2007 with the purpose of being a "common reference point for all those involved in the design of residential neighbourhoods" and represents "a strong Government commitment to the creation of sustainable and inclusive public spaces".

2.40 This latest design guidance demonstrates "benefits that flow from good design and assigns a higher priority to pedestrians and cyclists, setting out an approach to residential streets that recognises their role in creating places that work for all members of the community".

2.41 Manual for Streets sets out the following key objectives of the design of new residential neighbourhoods:

- *Encouragement of low vehicle speeds;*
- *Creation of an environment in which pedestrians can walk, or stop to chat, without feeling intimidated by motor traffic;*
- *Make it easier for people to move around;*
- *Promote social interaction.*

2.42 Manual for Streets 2 – "*Wider Application of the Principles, a companion guide to Manual for Streets*", was published by the CIHT in September 2010. Manual for Streets 2 builds on the philosophies originally set out in Manual for Streets. The document sets out additional guidance and case studies showing how the Manual for Streets principles can be extended beyond residential streets to encompass both urban and rural situations.

Developer's Policy on Sustainable Travel

2.43 The Developer, Places for People, have a comprehensive approach to sustainability which is set out in their document 'Environmental Sustainability Strategy 2023'.

2.44 This document sets out five objectives, as follows:

- **Reducing carbon emissions**
  Reduce Scope 1, 2 and 3 carbon emissions across the business.
- **Climate resilience**
  Adapt properties against the effects of acute and chronic climate events e.g., floods, temperature rises.
- **Ecology**
  Minimise biodiversity losses caused by building development, increase green space provision and reduce pollution.
- **Sustainable resource management**
  Promote procurement of sustainable and responsibly sourced resources and circular use by reducing consumption, increasing re-use and re-cycling of all resources, including construction materials, and reducing waste to landfill.
- **Customer and colleague engagement**
  Increase customer and colleague engagement in environmental sustainability.

2.45 The document states at 2.8:

New homes developments
All new build homes will be Net zero carbon ready by 2025. A recent report[4], funded by Places for People, identified challenges and opportunities and the trade-offs in delivering net zero ready homes.

2.46 Places for People are therefore fully engaged in reducing carbon emissions to net zero in the near future and, by extension, are committed to providing for sustainable travel modes across all aspects of their business, including provisions for new-build homes to minimise carbon emissions.

3 Development Proposals and Accessibility

3.1 The Travel Plan for this development will need to consider the location of the site together with its accessibility to local facilities and the opportunities available for sustainable travel in the local area.

Development Proposals

3.2 The development proposals comprise 102 residential dwellings under Use Class C3, with associated vehicular and pedestrian access. All dwellings will be offered as affordable housing. The site layout is included in Appendix B.

Vehicular Access

3.3 Access is proposed to be taken by changing the existing priority access junction between College Road and Apollo Drive into a four-armed staggered junction arrangement. The new eastern arm of the junction will form the vehicular access to the development.

Active Travel Access

3.4 The pedestrian access to the development would be facilitated by new connections to the existing footway along the eastern side of College Road at the proposed staggered junction with Apollo Drive. This point of access would connect to dwellings via a network of footpaths within the internal layout of the site. The pedestrian site access is shown on the layout drawing 1017-01-PHL-101 in Appendix A.

3.5 An uncontrolled pedestrian crossing will be provided on the access road to facilitate pedestrian movement to College Road south of the site. The access design also allows for cycle connectivity to emerging future cycle facilities along College Road under development by the Highway Authority.

Internal Layout

3.6 The internal layout has been developed using the principles set out within Department for Transport Guidance; *Manual for Streets* and with reference to the HBC Borough Design Guide SPD. The routes through the development will be generally 6m in width to

accommodate perpendicular parking. There are also 'home-zone' shared surfaces within the development of widths greater than 6.0m.

3.7 It is expected that the eastern arm of the new staggered junction leading into the site will become adopted highway for approximately 40m into the site, beyond which the roads will be privately maintained.

3.8 Visibility has been provided in line with Manual for Street guidance the design speed of each link (20mph on straighter sections and 15mph at the tightest corners). A reduced design speed at corners is considered appropriate given the slower speeds required in order to negotiate the turn.

Parking

3.9 Car parking for the development will be provided in line with the HBC Parking SPD. The accommodation schedule for the development is seen in Table 3.1.

Table 3.1 – Accommodation Schedule

Type of Dwelling	Private	Affordable	Total
1 bed flat	0	11	11
2 bed flat	0	32	32
2 bed FOG	0	3	3
2 bed house	0	20	20
3 bed house	0	25	25
4 bed house	0	11	11
TOTAL	0	102	102

3.10 All 56 houses in the development, together with the flats over garages (FOG), have two allocated parking spaces each whilst the 43 flats have one parking space each. This results in a total of 161 unallocated parking spaces for residents, with eight unallocated visitor spaces bringing the total number of spaces to 169.

3.11 The parking provision required by HBC depends on whether parking spaces are allocated or unallocated. The indicative requirements for allocated and unallocated parking space provision are found in Table 4A and 4B of the parking SPD

respectively. The resulting parking provision required for the development is represented below in Table 3.2.

Table 3.2 – Minimum Car Parking Requirements (HBC)

Size of Dwelling	Units	Unallocated		Allocated	
		Spaces/ Unit	Spaces	Spaces/ Unit	Spaces
1 bed flat	11	0.9	9.9	1	11
2 bed flat	32	1.3	41.6	2	64
2 bed FOG	3	1.3	3.9	2	6
2 bed house	20	1.3	26	2	40
3 bed house	25	1.9	47.5	2	50
4 bed house	11	2.4	26.4	3	33
TOTAL	**102**		**155.3**		**204**

3.12 The 169 unallocated residential parking spaces proposed for the development therefore meet the minimum requirement for unallocated spaces according to the standards set by HBC.

3.13 HBC standards state that, with regards to visitors parking '*With the exception of small residential developments an additional 20% of unallocated parking for visitors should be accommodated*'. This equates to 31 additional spaces for unallocated residents' parking; or 41 additional spaces for allocated residents parking.

3.14 However, the HBC standards allow for lower levels of parking provision than the minimum standard for certain types of rented and social housing. Provision below the minimum standard is '*only considered for rented properties where there is evidence that the tenure is unlikely to change or the developers can demonstrate that lower standards would be appropriate*'.

3.15 In the case of the proposals, it is understood that all the properties will be affordable housing (secured by the s106 Agreement), and therefore a lower level of parking provision than that seen in Table 5.2 should be considered to be appropriate.

3.16 Furthermore, there are good public transport opportunities and amenities within a walkable distance of the site that should reduce the dependence on the private car for residents.

3.17 To further reduce the carbon footprint of the development's residents, charging points for electric vehicles will be provided for each dwelling, including the proposed flats. Wall or post-mounted sockets will be available for each house, connected to its electricity supply, whilst a Pay-As-You-Go metered charging point will be provided for each parking space associated with the flats.

3.18 The development therefore provides parking consistent with the HBC parking Standards, and which is considered appropriate for the location of the proposed development.

Cycle Parking

3.19 Long-stay cycle parking for the development will be provided in accordance with the HBC Parking SPD, seen below in Table 3.3.

Table 3.3 – Cycle Parking Requirements (HBC)

Size of Dwelling	Units	HBC Requirements (long stay cycle parking)	
		Spaces/ Unit	Spaces
1 bed flat	11	1	11
2 bed flat	32	2	64
2 bed FOG	3	2	6
2 bed house	20	2	40
3 bed house	25	2	50
4 bed house	11	2	22
TOTAL	**102**		**193**

3.20 The proposed site layout includes cycle storage areas associated with each block of flats, providing 86 spaces across five blocks, equating to two spaces per flat. This exceeds the 75 spaces required for the flats set out within HBC standards. Provision for flats will be accommodated within secure, covered cycle stores. It is proposed that sufficient space for the storage of two bicycles will be provided within the curtilage of each house and in the garages below the FOGs, providing a further 112 spaces. This results in a total long stay cycle parking provision of 204 spaces.

Existing Active Travel Provision

3.21 College Road is of a gentle gradient for most of its length, with a slight positive incline from Portsdown Hill Road. The street is lit along its length and has no steps on any footway.

3.22 There is an uncontrolled pedestrian crossing approximately 60m south of the junction with Apollo Drive. There are steps on both sides of the carriageway leading down onto Portsmouth Golf Course, located approximately 60m south from the junction between Crookhorn Lane and College Road.

3.23 At the junction of College Road with Purbrook Way there are two-stage signalised crossings for pedestrians across both College Road and Purbrook Way (east).

3.24 Approximately 20m north and 30m south of the South Downs College junction with College Road there are uncontrolled pedestrian crossings with dropped kerbs and pedestrian refuges.

3.25 There is a continuous foot/cycleway of approximately 3m width along the southern side of Purbrook Way from the junction with College Road to the Crookhorn Lane roundabout, where cyclists merge with the on-road traffic at the roundabout. This route is a Public Right of Way (PRoW), listed as Bridleway 28 (PRoW 28) which may also be used by cyclists. PRoW 28 runs south from Purbrook Way along College Road before continuing east through Gundymoor Wood for approximately 250m where it meets PRoW footpath 26c. Both PRoW 28 and 26c continue east before meeting again on Scratchface Lane and end near the overpass on the A3(M). These routes provide a good off-road connection for pedestrians and cyclists to access Bedhampton.

3.26 There is a continuous pedestrian footway of approximately 1.5m width along the northern side of Purbrook Way between the Crookhorn Lane roundabout and the B2150 roundabout, with some sections of 3m shared pedestrian/cycle space.

3.27 Off-road footpaths connect Atlantis Avenue and Crookhorn Lane via Athena Avenue. This allows pedestrian access from the development site to the amenities on Crookhorn Lane within a short 10-minute (800m) walk.

3.28 National Cycle Route 222 (NCN 222) runs north from Portsdown Hill Road along Crookhorn Lane, continuing north along Crookhorn Lane to the four-arm roundabout with Purbrook Way. NCN 222 then runs along Stakes Hill Road towards the centre of Waterlooville. Within Waterlooville town centre there are many off-road cycleways. A map of the local cycle routes in Havant and Waterlooville can be seen in Appendix D.

Public Transport

Bus

3.29 The closest stops to the site are situated on College Road and are known as the '*South Downs College*' stops- these stops can be reached in under a 5-minute walk from the proposed development site via College Road. A summary of services is shown in Table 3.4 below. The relevant bus timetables and route map are included in Appendix E.

Table 3.4 - Existing Bus Services – 'South Downs College' Bus Stops

Service	Operator	Route	Approximate Average Frequency		
			Mon-Fri	Sat	Sun & BH
37	Stagecoach	Havant - **Waterlooville** - Petersfield - Liss - Alton - Bordon	Hourly	Every 1.5 hours	-
39	Stagecoach	Havant – Bedhampton – **South Downs College** - Waterlooville	Every 15 minutes	Every 15 minutes	Hourly
654*	First	Hambledon - Waterlooville - **South Downs College** - Havant Campus	Morning & Evening	-	-
737*	Stagecoach	Havant -- **South Downs College** - Petersfield - Bordon	Morning & Evening	-	-

3.30 Table 3.4 shows that there are a number of daily services from the South Downs College Stops to destinations in the local area, including Havant.

3.31 As well as the 'South Downs College' stops, the 'Crookhorn Precinct' stops are accessible from the site within a short 10-minute (800m) walk of the site. These stops include services additional to

those at the 'South Downs College' stops. A summary of services is shown in Table 3.5 below. The relevant bus timetables are attached in Appendix E.

Table 3.5 - Existing Bus Services – 'Crookhorn Precinct' Bus Stops

Service	Operator	Route	Approximate Average Frequency		
			Mon-Fri	Sat	Sun & BH
20	Stagecoach	Havant – Bedhampton – Purbrook - Portsmouth	Every 30 minutes	Every 30 minutes	-
37	Stagecoach	Havant - **Waterlooville** - Petersfield - Liss - Alton - Bordon	Hourly	Every 1.5 hours	-
39	Stagecoach	Havant – Bedhampton – **South Downs College** - Waterlooville	Every 15 minutes	Every 15 minutes	Hourly

3.32 'Community First' operate 'Call & Go Havant', a service available for individuals unable to access regular public transport due to limited mobility or sensory difficulties. They operate a fleet of wheelchair accessible vehicles, and can pick-up and drop-off at chosen locations.

Rail

3.33 Bedhampton Railway Station is approximately 2km to the southeast of the site, or a ten-minute cycle along Purbrook Way and Hulbert Road. The station provides step-free access throughout, together with accessible ticket machines and induction loops. There are 20 sheltered cycle parking spaces offered as racks, monitored by CCTV. There are no car parking facilities at this station.Although no seated waiting areas are provided, a shelter is provided on each of the two platforms. There are no toilet or refreshment facilities, but public Wi-Fi is available.

3.34 Direct services from this station offer travel to destinations including Portsmouth, London, and Littlehampton, timetables for which are included within Appendix E. Additional services are available from Havant Railway Station.

4 Travel Plan Objectives & Targets

4.1 The overarching theme of the Travel Plan for the South Downs College Development will be to promote sustainable and active travel. A series of objectives will be set in order to ensure that the overarching theme of the Travel Plan is met and that the wide-ranging sustainable transport measures are utilised to their full effect.

Objective 1: Minimise Single Occupancy Car Trips

4.2 The first objective will be to minimise single occupancy car travel to and from the development by promoting and providing sustainable transport options to the future residents.

4.3 This will lead to a change in the travel behaviour of individuals to adopt a sustainable mode of travel and then maintain that change where the private car does not automatically become the first choice mode.

Objective 2: Continual Travel Plan Monitoring

4.4 The second objective will be to work with the Local Residents to continuously monitor the effectiveness of the Travel Plan and the take-up of sustainable modes. This will help to identify whether changes to the Sustainable Transport Strategy are needed to maximise the use of non-car travel throughout the life of the Travel Plan.

Objective 3: Promote the development of a healthy, sustainable and vibrant Local Community

4.5 The third and final objective will be to promote the development of a healthy, sustainable and vibrant local community. Public Health England in their document '*Working Together to Promote Active Travel*' states that an increase in physical activity can reduce the risk of a number of common, but serious, medical conditions. In addition to this that same reports states that a population's mental health can be greatly improved through regular physical activity.

Travel Plan Targets

4.6 The overarching target for the Travel Plan is to reduce single occupancy vehicle trips by 10% from the baseline mode share as set out in Table 4.1 below:

Table 4.1 – Existing Mode Share – '*Havant 011*' from 2011 census data

Method of Travel to Work	Mode share	Indicative Modal Shift	Target Modal Split
Train	1%	+1%	2%
Bus, minibus or coach	5%	+2%	7%
Taxi	0%	0%	0%
Motorcycle, scooter or moped	1%	0%	1%
Driving a car or van	75%	-10%	65%
Passenger in a car or van	7%	+2%	9%
Bicycle	3%	+3%	6%
On foot	6%	+2%	8%
Other method of travel to work	1%	0%	1%
	100%	**0%**	**100%**

4.7 This target has the aspiration to be achieved within five years of completion of the development. It should be noted that Table 4.1 shows an indicative modal shift – the exact shift to sustainable modes is unknown and the target is a reduction of 10% from single car occupancy. It is expected that following the COVID-19 pandemic, a greater proportion of people will work from home compared to pre-pandemic levels, and as such there will be fewer people commuting.

4.8 Travel planning measures as proposed in Section 5 would contribute to this reduction, and the promotion of the Travel Plan would include cultivating a culture of sustainable travel through publicising the Travel Plan and local and national 'green' travel events.

5 Management Strategy

Travel Plan Ownership

5.1 The Travel Plan is for the people of the South Downs College Development and will be theirs to own and implement through a Sustainable Travel Forum using the wide ranging and comprehensive measures that will be provided.

5.2 The Travel Plan Coordinator will provide resources for running the Travel Plan and meeting its objectives, and will provide assistance to the Sustainable Transport Forum to facilitate its implementation for residents who might wish to take a leadership role.

Travel Plan Governance & Leadership

5.3 The Travel Plan will be led and governed by a Sustainable Travel Forum within the South Downs College development. This would be a group made up of residents of the development that have expressed an interest in sustainable and active travel within College Road and the wider Waterlooville area. This group could be a sub-group of, and report to, a wider development Community Association.

Travel Plan Co-ordinator

5.4 The developer will be responsible for ensuring a Travel Plan Co-ordinator (TPC) is in place for the development at least three months prior to first occupation. It is expected that initially the role of the TPC would be filled by a member of the developer's permanent staff and therefore this represents a cost of implementing the scheme.

5.5 A TPC will be in place between three months prior to first occupation to five years following first occupation.

5.6 The amount of time the TPC would typically spend on travel planning activities will naturally vary over time depending on the stage of its implementation. At the beginning this might be up to two- or three days per week as travel information is prepared, measures are inaugurated and queries from residents are more commonplace.

5.7 It is expected that the TPC would spend around five hours per week overall on average, although at times of data collection, analysis and review, this would become full-time temporarily over the course of two or three weeks in each of years 1, 3 and 5. At other times, not including events, it would be expected that the TPC would spend around two to three hours per week working on the SDC Travel Plan.

5.8 It is anticipated that the TPC will cost in the region of £10.90 per hour. At an estimated average of 239.75 hours per year over the course of their five-year employment, the total cost for the TPC would be approximately £13,000.00, plus an approximate £2000.00 set-up cost.

5.9 As well as having specific duties to lead on the delivery of the Travel Plan and the implementation of associated services and a promotional strategy, the TPC will act as a central point of contact between the developer/sales staff, local authority and local residents. In addition, they will endeavour to organise initiatives with schools, local cycle shops, and other establishments, to implement 'soft' sustainable transport measures.

5.10 The TPC will also be responsible for undertaking surveys to monitor the effectiveness of the Travel Plan, and developing the measures accordingly to ensure they respond to changes in local sustainable transport infrastructure and services and therefore continue to meet the needs of residents. Further details on the responsibilities, commitments, and obligations of the TPC are included in the TPIS schedule contained in Appendix C of this document.

5.11 The TPC should remain assigned to the development for a suitable period of time after occupation and should implement new measures in light of the results of the travel plan monitoring regime outlined later in this report.

5.12 The ongoing duties of the TPC will include:

- Liaise with Travel Plan Coordinators at local schools and employers to facilitate cross-promotion of relevant measures.
- Coordinate with schools to organise 'walk to school' events.
- Engage with national and local sustainable travel initiatives and events such as 'Cycle to Work Day'.

- On request, provide Personal Travel Planning for each occupant with advice on how best to minimise single occupancy vehicle travel, tailored to each individual's needs.
- Disseminate updated travel information through the website to ensure it is relevant to meet the ongoing needs of residents.
- Liaise with local cycle shops and public transport operators to query whether discounted equipment and services can be arranged for local residents.

6 Proposed Sustainable Transport Measures

6.1 Two types of measures will be employed at the development site. These will be "soft measures" and "hard measures". The "soft measures" will be complementary to the physical infrastructure or "hard measures".

6.2 For the South Downs College development it is proposed that the "hard measures" would include the following:

- Design of the layout to minimise vehicle speeds and promote the dominance of pedestrian and cycle movements;
- Connections to quality broadband services;
- Implementation of a high-quality walking/cycling route through the site to provide a connection to existing infrastructure on College Road, as well as the adjacent 'East of College Road' site; and
- Secure cycle parking provided within the development.

6.3 To complement the "hard measures", the following "soft measures" are proposed and would include the following:

Cycling

- The TPC will set up a Bicycle User's Group, if sufficient interest is shown, which would ultimately be run by the residents.

Public Transport

- Provide public transport information, website addresses and contact numbers.

Marketing and Promotion

- Set up a community web-site; providing an outlet for the promotional strategy set out below.
- Install a community notice board which would include sustainable travel information for all occupants and visitors.
- Distribute travel information packs to each household upon occupation, providing detail on all potential sustainable travel opportunities, key contacts, and promotion of free mobile phone health applications.
- Offer Personal Travel Planning

- Hold or take part in national and local green travel events
- Set up focus groups

Smart Working Measures

- Encourage residents to shop online.
- Promote home working where practical;

Ensure connections to quality broadband services.Development Travel Website

6.4 The Development Community Travel Website will be implemented by the Travel Plan Coordinator (TPC). One of their roles will be to keep this website as up to date as reasonably possible with links to external sources of travel and timetable information such as www.travelinesw.org.

6.5 The Development Community Travel Website will aim to raise awareness of the aims and objectives of the Travel Plan, promote sustainable travel options and engage residents in the future development of the Travel Plan.

6.6 The Website will include the following travel information as appropriate:

- A brief explanation of the Travel Plan and its objectives;
- Comment boxes which link directly with the TPC;
- Means by which to request Personal Travel Planning;
- Details of the Bicycle Users' Group and a Focus Group;
- Links to pedestrian, cycling and public transport maps;
- Links to live bus and rail timetables;
- Promotional material highlighting health and environmental benefits of walking and cycling;
- Details of local car share databases;
- Public transport information website addresses and contact numbers; and
- Information on sustainability in the wider Havant and Waterlooville Area.

- Any promotional community-based activities and events (such as car-share schemes and sustainable travel events) can be announced and reported on via the community travel website.

6.7 The developer's sales staff will be fully informed about the travel plan and will be able to brief perspective buyers about the measures it contains. Travel information will also be provided within sales packs.

6.8 Any promotional community-based activities and events can be announced and reported on via the community travel website.

6.9 The Final Cost Estimate to implement and manage the Travel Plan is £15,000.00. This will be used to set the Travel Plan Cost Deposit.

7 Monitoring and Review

7.1 The Sustainable Travel Forum, with support from the TPC, will be responsible for monitoring and evaluating the impacts of all the measures implemented through the Travel Plan and reporting back to the relevant authorities and Residents Association.

7.2 Monitoring of the Travel Plan will be important in understanding the varying nature of residents' travel habits, changes to local transport infrastructure and services and ensuring that the objectives of the Travel Plan continue to be delivered. Any obligations associated with the payment of fees to HCC for review and monitoring of the Travel Plan will be subject to agreement by the LPA for inclusion in the Section 106 Agreement.

7.3 The monitoring process would involve questionnaire surveys undertaken to assess changes to the mode share of trips to the development site. Surveys would be disseminated through the Website in order to ensure that they have the greatest uptake. Additionally, a prize draw may be offered to incentivize completion of the survey. It should be noted that a 35% response rate is required for HCC to consider a survey statistically significant. The design of the questionnaire will be submitted to the Local Highway Authority for agreement before being distributed to residents.

7.4 Residents that do not have access to the internet or a smart phone will be provided with a paper copy of the survey to ensure everyone has the opportunity to provide their opinion.

7.5 It is proposed that questionnaires are distributed to residents at least six months after completion of their property in order to establish baseline travel behaviour.

7.6 Following the initial survey further surveys would be undertaken in year 3 and year 5 post development in order to monitor the effectiveness of the travel plan measures and ensure residents have the ability to regularly comment on the effectiveness of the sustainable transport strategy.

7.7 An annual monitoring report could be produced, setting out the results of the surveys and highlighting any issues arising from the review of the travel plan measures. This would be submitted to

Hampshire County Council and would set out appropriate changes to existing initiatives, if required, in order to meet the travel plan objectives.

7.8 The timetable for the monitoring process is set out in Table 7.1.

Table 7.1 Monitoring Timetable

	Baseline (Year 1)	**Year 2**	**Year 3**	**Year 4**	**Year 5**
Level of Report	To be submitted one year after occupation. This will include the baseline survey results found in the Full Travel Plan and a monitoring report.	Monitoring Report	Full surveys and monitoring report	Monitoring Report	Full surveys and monitoring report

7.9 Snapshot surveys will be undertaken in the years where a full survey will not be carried out.

7.10 The TPC will endeavour to elicit a 35% response rate to surveys. If this is not achieved, an ATC, SAM, or TRICS-based survey will be required, as agreed at the time with HCC.

7.11 A sample questionnaire will be included in the survey report.

8 Delivery and Enforcement

8.1 A Section 106 Agreement will be drafted to ensure that planning obligations relating to any off-site works are undertaken, such as improved highway infrastructure.

8.2 The S106 will set out the Travel Plan Cash Deposit, estimated to be £15,000.00, to include the cost of the TPC and start-up/materials costs of around £2,000.00. The Developer commits to providing the Travel Plan Cash Deposit which will be of equal value to the travel plan measures.

8.3 Should it transpire that targets are not being met, particularly in the reduction of single-occupancy car use, existing measures may be enhanced or new measures devised with the aim of meeting the targets as set out in Section 4. These measures will be discussed with key stakeholders, including HCC.

9 Summary & Conclusions

9.1 Awcock Ward Partnership (AWP) has prepared a Framework Travel Plan to be used as a base for the Travel Plan which will promote the use of sustainable modes of travel for journeys to/from the proposed residential development at the former South Downs College car park site. It is anticipated that implementation of a full operational Travel Plan will be secured via a Section 106 Agreement.

9.2 This Travel Plan relates to a proposed residential development of 102 dwellings comprising affordable houses and flats, for which a total of 161 car parking spaces will be provided, all of which will be equipped with an electric vehicle charging point. Additionally, eight visitor spaces will be provided. A total of 204 cycle parking spaces will be provided.

9.3 In order to support the objectives of the Travel Plan, a target for a 10% reduction in single-occupancy car journeys from the development is proposed, along with associated increases in sustainable travel modes.

9.4 The Travel Plan will be monitored annually over five years, with full questionnaire surveys in years one, three and five. If targets are not being met, new strategies will be introduced.

9.5 A Sustainable Travel Forum would be created to take ownership and leadership of the Travel Plan and its objectives. The Travel Plan Coordinator will be a member of the developer sales staff or the development Management Company.

9.6 A strategy including a series of complementary measures are proposed to be implemented at the development to help achieve the modal shift targets set. This includes a range of on-site infrastructure and design features of the development linking into the existing infrastructure adjacent to the site.

9.7 A Travel Website will be created to enable dissemination of travel information to residents and encourage the use of sustainable modes of travel.

9.8 The responsibilities and timescales for implementation and monitoring the progress of the measures included within the Travel Plan have been provided. This will include the completion of

residents' questionnaire surveys to establish progress against the mode share targets that have been set.

9.9 Feedback on the implementation of the Travel Plan will be provided to the Community Travel Forum, with changes to the package of travel plan measures identified as appropriate in order to ensure the overarching objectives of the Travel Plan continue to be met.

9.10 The Final Cost Estimate to implement and manage the Travel Plan is £15,000.

9.11 In conclusion, this Framework sets out a comprehensive strategy to manage multi-modal access the South Downs College Development, with a series of complementary measures to encourage the use of sustainable modes of travel for short journeys in favour of the private car.

Cycling in the Havant area

www.havant.gov.uk/cycle

A great place to ride

Nestled between the South Downs and the Solent, there is a wealth of great cycling routes throughout the borough...

Covering an area of around 75 kilometres, this guide will provide you with the definitive map of cycle paths and routes through the borough of Havant and the southern parishes of East Hampshire.

Internationally-important coastlines provide magnificent cycling views. There are also beautiful woodlands as you head north, as well as the South Downs. From sea level to an elevation of 230 metres as you reach the South Downs National Park, there is a variety of country lanes and tracks for you to enjoy.

Racing bike or mountain bike, young or old, there are great cycling opportunities for all in the borough.

Promoting cycling

These national charities have worked tirelessly to help improve cycling opportunities and safety here and throughout the country

we are cycling (The cyclists' champion) UK

sustrans JOIN THE MOVEMENT

With more than 68,000 members, Cycling UK is a charity whose origins date back to 1878. It promotes all forms of cycling, protects the interests of existing and would-be cyclists, and inspires people of all ages, backgrounds and abilities to enjoy cycling.

Supporting hundreds of bike clubs throughout the country, why not see what is on your doorstep?

www.cyclinguk.org

A charity dedicated to sustainable transport, Sustrans is responsible for the National Cycle Network, which has created more than 14,000 miles of signed cycle routes throughout the UK. With a volunteer workforce in the thousands, it works to maintain the National Cycle Network, enhancing biodiversity along its routes and helping communities improve their air quality.

www.sustrans.org.uk

About Havant

Once famous for its parchment making, Havant is now a bustling town offering great places to eat, shop and explore.

Havant takes its name from Haman Funta (Hama's Spring), a local spring believed to be the one at Homewell. Havant grew up at the crossing point of two ancient roads, the Langstone Harbour to Rowlands Castle track and the Roman coast road from Chichester to Wickham.

Today, Havant has a lot to offer a cyclist passing through. With plenty of places to rest and eat, secure bicycle racks and three bicycle shops in the town, Havant is well worth a visit!

Why not visit St Faith's Church (parts of which date back to the early 13th century), Havant Park or follow the Havant Heritage Trail, marked by blue plaques throughout the town?

Cycle shops

Whether preparing in advance - or dealing with a mishap mid-ride - knowing where your local bike shop is always makes sense! Listed below are some of the local bike shops at your disposal... Call if you can to check they are open!

Sivyer Cycles

About Waterlooville

Named after the soldiers who stopped there after returning from the Battle of Waterloo, Waterlooville has lots to offer...

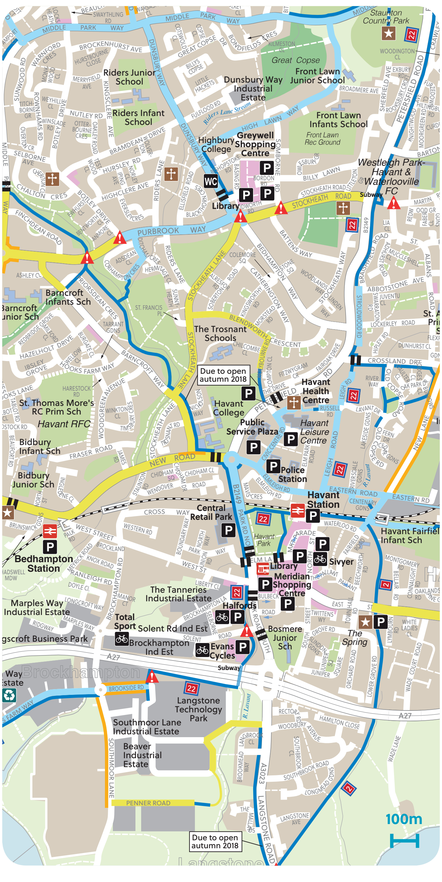

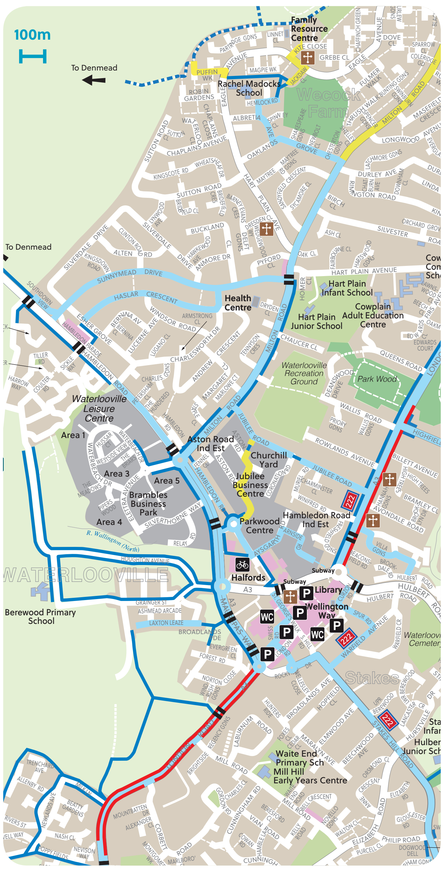

Waterlooville initially developed around a road running through the Forest of Bere. A simple track – only usable in fair weather - led through the forest from Horndean to Portsmouth. In 1711, a much better road was constructed joining London to Portsmouth – recognisable today as London Road.

Growing significantly in size following World War II (at one stage, it was recognised as the fastest growing town in Britain), Waterlooville is home to a wide range of shops, pubs and cafés – ideal for a break on your bike ride!

About Emsworth

A Saxon village with strong fishing and sailing ties, Emsworth has a lovely town centre offering fine places to eat and shop...

Emsworth derives from the Anglo Saxon Æmeles worþ = "a man called Æmele's enclosure". Divided from the nearby manor of Warblington in the early 13th Century, Emsworth began to thrive with the need to supply the Royal Navy during the rise of the British Empire. With a strong focus on fishing – and once famed for its oysters which were considered the best in the country – Emsworth is now home to a bustling town centre offering the very best of local shops, restaurants, cafés and more.

For cyclists, Emsworth is accessible by a variety of coastal paths and tracks, and is without doubt well provisioned. With a local bike shop, many places to secure bicycles and great coastal views, what more could you ask for?

Bmx fun!

For those feeling a little more adventurous, the borough is home to BMX and skate parks for practising their moves... Do wear the right kit!

Showing due respect

It's important to enjoy your bike ride - just not at the expense of others. Here are a few pointers to consider for a ride everyone will enjoy...

- Use paths shared with others considerately, and always consider your speed around them.
- Do not assume people have seen or heard you.
- Take care around horse riders, leaving them plenty of room - especially when approaching from behind.
- Cycle at a speed safe for you and those around you. Don't let personal challenges place you or others at risk.
- Slow down where space is limited, there are crossings or junctions, or you cannot see clearly ahead.
- Have a bell on your bike - and use it to avoid surprise.
- Don't ride in dull or dark weather without lights.

About Hayling

Home to an Iron Age shrine, a Roman temple and 12th Century monks, Hayling is also the home of windsurfing, invented here in 1958.

A true island, connected to the north by Hayling Bridge and to the west by the Hayling Ferry, the island has been in continuous use since the Iron Age.

Steeped in history, half of the island was granted to the French abbey of Jumièges by William the Conqueror. Salt production was a major industry on the island. It was recorded in the Domesday Book and continued into the late 19th Century.

Today, the island's fine beaches prove popular with paddlers and watersports enthusiasts alike, and the Hayling Billy Trail – following the line of a disused railway – travels the length of the island, providing cyclists with a safe and beautiful route to explore.

KEY ROAD SIGNS FOR CYCLISTS

The Highway Code can be seen at www.gov.uk/highwaycode , but some key signs for cyclists are as follows:

- Route recomended for cyclists on main road
- Route to be used by cyclists ONLY
- Shared pedestrain and cycle route
- Segregated cycle and pedestrian route
- Contra-flow cycle route
- With - flow cycle land ahead (a solid line prohibits all other vehicles)
- Warning (for motorists) Cycle route ahead
- No cycling

KEY

Signs and Lines

- Off road cycle track (hard surfaced)
- On-road cycle lane
- Bus and cycle lane
- Signposted route (part of a National Cycle Network route where indicated)
- Suggested link route (not signposted)
- By-way open to all traffic (BOAT) or bridleway or other track available for cyclist use (typically loose sufaced)
- By-way open to all traffic (BOAT) or bridleway or other track available for cyclist use (typically improved sufaced)
- One way traffic INCLUDING CYCLISTS
- Controlled crossing
- Cyclists beware - Difficult junction, barriers or step
- Cycle parking
  NB - All stations and most public buildings have cycle parking facilities
- Cycle shop

Buildings and places of interest

- Public toilets
- Church
- Caravan site
- Other places of interest
- Mainline railway station
- Narrow gauge railway station
- Bus interchange
- Ferry terminal
- South Downs National Park boundary
- Woods and forests
- Parks and other open spaces
- Countryside and arable land
- School or college
- Shopping area / retail park
- Blue Flag beach

NATIONAL CYCLE NETWORK

The network is a 14,000 mile network of safe, traffic-free paths and quiet on-road cycling and walking routes.

The Havant area is fortunate enough to have three main routes from the National Cycle Network running through it. These are marked on the maps in this leaflet as light blue routes with their corresponding route number. The routes are:

Route 2 - Dover to Cornwall 2
Via Brighton, Chichester, Havant, Portsmouth and Exeter

Route 22 - South London to New Forest 22
Via Guildford, Farnham, Petersfield, Havant, Portsmouth and the Isle of Wight

Route 222 - A link between routes 2 and 22 222
Connecting route 22 at Chalton to route 2 in Southsea via Horndean, Waterlooville and Farlington

If you've enjoyed riding along these lovely routes, why not consider becoming a volunteer and help maintain them? For more information on the network and volunteering, visit **www.sustrans.org.uk**

20 Havant - Portsmouth - The Hard

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

20 The Hard - Portsmouth - Havant

Stagecoach in Portsmouth

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

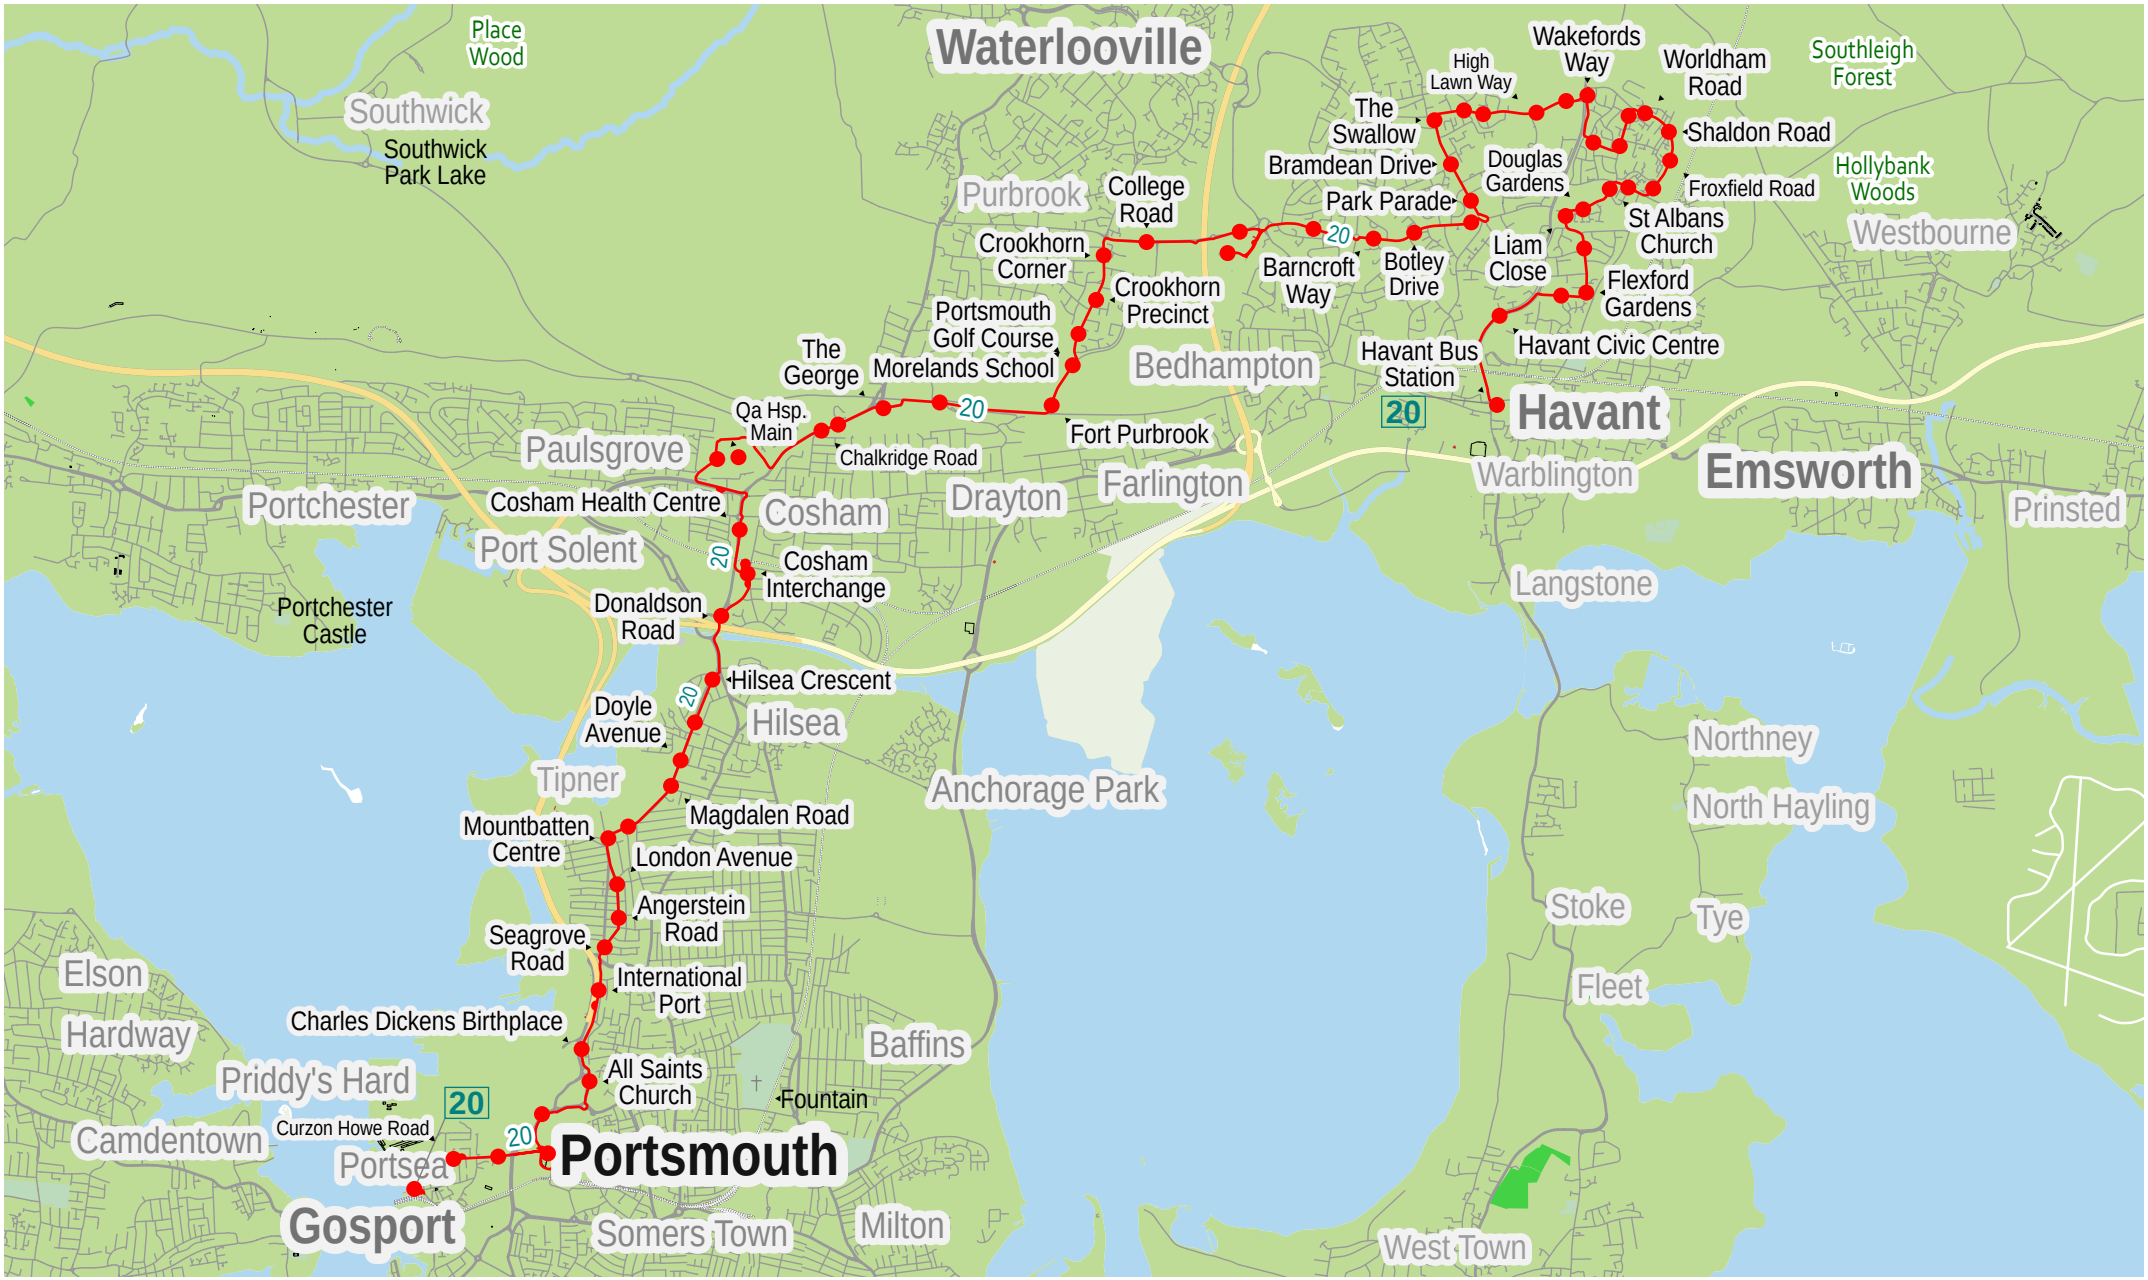

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Important information related to service 20 at 12:45:03 on 9th June 2023

HM Government reduced Adult single fares trial until 31st October 2023

Valid from 1454 on 14 Feb 2023 until 2359 on 31 Oct 2023

Most operators are taking part in the Government's capped Adult single fare scheme which runs until 31st October 2023. The maximum Adult single fare is £2 on most local bus services. School and college buses, coach services (including Falcon, Oxford Tube and airport services), Sightseeing Tours and Night Buses are excluded.

Purbrook Way / Hulbert Avenue

Valid from 0940 on 17 Apr 2023 until 1559 on 16 Jun 2023

Affected stops:

Leigh Park (Havant), Hulbert Road

Please note the details of an immediate bus stop suspension on **Purbrook Way** in **Havant** for emergency gas work. The stop is called: **Hulbert Avenue** (travel toward Asda Roundabout) **Start of suspension**: 13/04/2023 12:00 **End of suspension**: 16/06/2023 16:00 If possible, a temporary stop will be supplied to the west, near the vehicle entrance to B&Q, if the Traffic Management does not permit this, then please use alternative stops in Asda or at juction with College Way

Timetables

Havant - Mengham - Eastoke - Beachlands - West Town - Havant

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Continued on next page.

Continued from previous page.

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

30/31 Havant - West Town - Beachlands - Eastoke - Mengham - Havant
Havant - Mengham - Eastoke - Beachlands - West Town - Havant

Important information related to service 30/31 at 12:52:15 on 8th June 2023

Havant Road, Hayling Island - Overnight works

Valid from 1940 on 09 Jun 2023 until 0559 on 10 Jun 2023

Havant Road, Hayling Island from Victoria Road to Mill Rythe Lane will be closed for overnight works. The works are currently programmed to start on Friday 9th June 2023 and are expected to take 1 night to complete. During this time the road will be closed to through traffic from approximately 20:00 to 06:00 hours. The road will be open outside of these hours**. This will affect some trips on the Stagecoach 30/31 - Please chec with the Oeratpr prior to travel for their intended diversion**

HM Government reduced Adult single fares trial until 31st October 2023

Valid from 1454 on 14 Feb 2023 until 2359 on 31 Oct 2023

Most operators are taking part in the Government's capped Adult single fare scheme which runs until 31st October 2023. The maximum Adult single fare is £2 on most local bus services. School and college buses, coach services (including Falcon, Oxford Tube and airport services), Sightseeing Tours and Night Buses are excluded.

Timetables

Select a timetable using the bookmarks (on the left of this page). Choose the direction and day of travel you require. Stop and Street Names and SMS codes are also available.

no service

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Continued from previous page.

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

39 Havant - Wecock Farm

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

654 Havant Campus - South Downs College - Waterlooville - Denmead - Hambledon

First in Hampshire

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

737 Bordon - Petersfield - Havant

For times of the next departures from a particular stop you can use **traveline-txt** - by sending the SMS code to **84268**. Add the service number after the code if you just want a specific service - eg: **buctdgtd 60**. The return message from **traveline-txt** will show the next three departures, and it currently costs 25p plus any message sending charge. Departure times will be real-time predictions where available, or scheduled departure times if not.

You can also get the same information by using the SMS code at www.nextbuses.mobi (only normal browsing charges apply) or through several iPhone or Android apps that offer access to **NextBuses**.

NOTE: SMS codes are different in each direction. Make sure you choose the right direction from these lists.

Important information related to service 737 at 12:48:49 on 8th June 2023

HM Government reduced Adult single fares trial until 31st October 2023

Valid from 1454 on 14 Feb 2023 until 2359 on 31 Oct 2023

Most operators are taking part in the Government's capped Adult single fare scheme which runs until 31st October 2023. The maximum Adult single fare is £2 on most local bus services. School and college buses, coach services (including Falcon, Oxford Tube and airport services), Sightseeing Tours and Night Buses are excluded.

Timetables

Select a timetable using the bookmarks (on the left of this page). Choose the direction and day of travel you require. Stop and Street Names and SMS codes are also available.

Important information related to service SD5 at 12:35:11 on 8th June 2023

HM Government reduced Adult single fares trial until 31st October 2023

Valid from 1454 on 14 Feb 2023 until 2359 on 31 Oct 2023

Most operators are taking part in the Government's capped Adult single fare scheme which runs until 31st October 2023. The maximum Adult single fare is £2 on most local bus services. School and college buses, coach services (including Falcon, Oxford Tube and airport services), Sightseeing Tours and Night Buses are excluded.

Purbrook Way / Hulbert Avenue

Valid from 0940 on 17 Apr 2023 until 1559 on 16 Jun 2023

Affected stops:

Leigh Park (Havant), Hulbert Road

Please note the details of an immediate bus stop suspension on **Purbrook Way** in **Havant** for emergency gas work. The stop is called: **Hulbert Avenue** (travel toward Asda Roundabout) **Start of suspension**: 13/04/2023 12:00 **End of suspension**: 16/06/2023 16:00 If possible, a temporary stop will be supplied to the west, near the vehicle entrance to B&Q, if the Traffic Management does not permit this, then please use alternative stops in Asda or at juction with College Way

Timetables

Select a timetable using the bookmarks (on the left of this page). Choose the direction and day of travel you require. Stop and Street Names and SMS codes are also available.
