7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Impact upon the character and appearance of the area
- (iii) Impact upon residential amenity
- (iv) Parking

(i) Principle of development

- 7.2 The application site is situated within an urban area where further development is considered acceptable subject to the usual development control criteria.

(ii) Impact upon the character and appearance of the area

- 7.3 This proposal comprises the addition of an external stairwell to the rear of the property. This application is associated with APP/23/00455 which proposes to change the use of the first floor salon use into residential use. The proposed external stairwell would create access to the residential first floor flat. The proposal is not considered to result in harm to the amenity of the area .
- 7.4 The design and appearance of the proposal is deemed appropriate in context to the main building and is therefore considered to be acceptable, meeting the requirements of Policy CS16 of the HBLP (Core strategy). It is considered that the scheme would not result in an adverse impact on the visual amenity of the locality.

(iii) Impact upon residential amenity

- 7.5 To the east of the application site is no 16 Mengham Road. The stairwell would be in use fleetingly when the resident is accessing the property and is not considered to allow for prolonged views back into first floor windows . Consequently, it is considered that the proposal will not appear overbearing or lead to overlooking and would have limited and acceptable impact on the properties immediately adjacent to the application site and the properties opposite or to the rear, meeting the requirements of Policy CS16 of the HBLP (Core Strategy).

(iv) Parking

- 7.6 The proposal for the external stairwell would not impact the 3 parking spaces on site . There would also be an intergrated cycle parking area at ground floor level beneath the stairwell.

8 Conclusion

- 8.1 The scale, siting and design of the proposal would have limited and acceptable impact on the neighbours and is therefore considered to be appropriate and recommended for approval.
