Left Side Elevation

- 1) This drawing is the copy of the original drawing and cannot be reproduced without the permission of the author.
- 2) This drawing should be used for planning application and/or building work should commence only after the necessary law have been obtained.
- 3) This drawing if appropriate should be used in conjunction with a structural engineer's drawing and specification. Any discrepancy should be notified immediately for clarification prior to any work being carried out.
- 4) Whilst every effort has been made to ensure that the drainage/services, these are the responsibility of the owner. Any mains sewer found on site is the risk of the build being altered.
- 5) Whilst every effort has been made to ensure that the contractors responsibility for building work and/or any other work is the responsibility of the contractor.
- 6) All works are to be carried out in accordance with the Regulations British Standards and recommendations and to the satisfaction of the local authority including the issuance of all certificates of testing and completion.
- 7) It is the clients responsibility to ensure all building work is carried out in accordance with the Design and Management (CDD) Safety legislation.
- 8) These plans may be subject to 'Approval' or any other statute in law before the construction begins.
