

Recommendation: **REFUSE TPO CONSENT**

Councillor Mark Inkster

6 **Community Involvement**

This application was publicised in accordance with the Council's Code of Practice for Publicity of Planning Applications approved at minute 207/6/92 (as amended), as a result of which the following publicity was undertaken:

Number of neighbour notification letters sent: 9

Number of site notices: 1

Statutory advertisement: Not applicable.

Number of representations received: 0

7 **Planning Considerations**

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

7.3 The tree in question makes a positive contribution to local amenity. Reasons provided relate to the number of broken branches and safety. However, 'no' has been ticked where the application form asks if reasons relate to the condition of the tree. The proposed reduction has not been sufficiently justified and will have a negative impact on the long term health of the tree and local amenity.

8 **Conclusion**

Refuse

9 **RECOMMENDATION:**

That the Head of Neighbourhood Support be authorised to **REFUSE TPO CONSENT** for application APP/23/00113 for the following reasons

- 1 The tree is a significant feature in the local landscape and appears to be in adequately sound and healthy condition. The tree surgery proposed in the deposited application would result in excessive reduction of the tree's landscape impact and undue detriment to the visual amenities of the locality. [A more appropriate course of action would be through management of the tree's size and impact through a scheme of approved surgery.] It is therefore

contrary to policy DM8 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework.
