

We write to express our objections to the proposed development on the Cowplain School site.

Having lived adjacent to the school here for 50+ years we frequently see the road congested and impassable when the parents are dropping off and collecting their children. (Emergency vehicles do struggle)

The parking is already difficult at times for those living in the road, with already inadequate parking facilities being further diminished and the safety of the children is a concern.

It would be pertinent to remember that a condition of the construction of the MUGA pitch was that the old tennis court (plot P2 on the planning application) was to be converted to parking.

The house that is proposed on Plot 2 has a window overlooking our house, this would interfere with our privacy and we ask that if planning permission is granted it is non-opening and has obscured glass.

We feel that building on and overdeveloping land that has been used for nearly 100 years for games and recreation is robbing future generations and is not good stewardship.

It is our fervent hope that this is reconsidered.
