

Supporting the application for change of balcony windows, 1st floor, Flat 3a, 47 Seafront (Norfolk Crescent), Hayling Island. HANTS. PO11 0AN.

The existing upvc doors/windows have been a subject of concern for several years, due to the listing of the building, and need to be changed. This application is submitted following several conversations and email exchanges.

The replacement windows, made of wood are very similar to those in other buildings within the 'Crescent'. The double glazing will be unobtrusive and following advice from both Havant and the window suppliers, the glazing will be 4-6-4 toughened.

The impact will be to restore the visual aspect of the of the Crescent.
