

APP/22/00939

Dear Denise

I write to you in support of APP/22/00939 for the proposed extension of living space /conversion of the garage at our neighbour's house - 13 Grange Close, Havant.

I live at [redacted text]. One of the reasons for purchasing our house was the overall feel and space in the street in general, we moved from a very busy road and had neighbours there with vehicles abandoned anywhere and everywhere, frequently blocking our driveway! We now, as most houses do in the street, have off road parking, and any visitors are always able to park in the street to the front of our house - there has never been any issue with this, even when we have had the occasional party or family get-together with several vehicles needing to park at the same time. I don't see any reason why that should change in the future, and all our neighbours are very considerate about parking in general. The garage conversion/extension proposed at 13 Grange Close would not adversely impact this in my view, as the residents would still park their vehicles in the same places on the road, neither of which pose a problem, or would inconvenience any of the neighbours.

I hope this gives you an indication of how the parking situation is in our street.

Kind regards
