Dear Madam,

Public Footpath adjacent to Langbrook Farm, Langstone Road, Havant, PO9 1RE

Application for prior approval of proposed 5G telecommunications installation of 17m high slim-line monopole, supporting 6 No. antennas, 2 No. equipment cabinets, 1 No. electric meter cabinet and ancillary development thereto including 1 No. GPS module.

Thank you for consulting the Highway Authority on the above planning application.

The latest prior approval application follows the refusal (under planning reference APP/22/01035) for a 5G mast slightly to the south of the latest proposal, in proximity to the Langstone Road/Langstone Technology Park Site Access junction.

The revised proposal situates the mast and associated infrastructure further to the north, outside of the site access visibility splay. Whilst the infrastructure will narrow the available footway width on Langstone Road, it is noted that the path will still be 2m wide and the narrowing is only present for a short section of the path. Given the remaining width of the footway and the relocation of the infrastructure outside of the visibility splay, the applicant has satisfactorily addressed the Highway Authority's previous concerns with the proposal.

The Highway Authority therefore recommends no objection to the proposed infrastructure within the footway. It should be noted that the proposed traffic management within the carriageway is not supported and will need to be agreed separately via Hampshire's permitting scheme when the applicant applies for roadspace.

Director of Hampshire 2050
Gary Westbrook

Yours sincerely,

Chris Hirst
