Dear Sir/Madam

Letter of Support for Planning Application – Warner House, Havant

I am writing to you to confirm VIVID's support for the planning application submitted for Warner House, Havant.

After reviewing the details of the planning application, we are supporting the application for the following reasons:

- VIVID support the provision of further homes for people in the locality.
- The proposed development achieves this with no loss of social housing in the area.
- Encourage the mix of private and social housing to create more diverse communities.

Whilst this letter is one of support, we are mindful of the impact that this development will have on our customers, both during and after construction. Therefore, we would hope that the terms that are granted in relation to this development minimise this impact as far as is practically possible, allowing quiet use and enjoyment of their homes during evenings and weekends.

We would request that special consideration is also given to the adequacy of noise insulation between neighbouring flats and communal areas, to avoid issues which would be to the detriment of both our customers and the future occupants of the proposed development.

A development such as this should bring benefits to all residents through improved safety, aesthetics and investment into the neighbourhood in which they are situated. We look forward to working constructively with the developer to support the success of this project.

Yours faithfully

Matt Bellamy
Head of Asset Strategy and Delivery
