7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 The report relates specifically to assessing the proposed works rather than generally

inspecting the tree's health and condition in any great detail.

- 7.3 The proposed works are appropriate pruning works that will retain the trees, but reduce the overhanging branches back to the boundary line of the site. The proposed works would alleviate the impact on the neighbouring property and are target pruning works to the south west facing branches only, maintaining the important contribution of the trees to the amenity value of the area. The proposed works would be in accordance with Policy DM8 of the Core Strategy (2011).
- 7.4 The works to the trees should form part of their long-term management to safeguard their health and amenity value and all works must be undertaken in accordance with 'British Standard 3998:2010 (BS3998:2010) – Tree Works – Recommendations'.

8 **Conclusion**

Permit

9 **RECOMMENDATION:**

That the Executive Head of Place be authorised to **GRANT TPO CONSENT** for application APP/23/00590

(A)

(B) for the following reasons/subject to the following conditions

- 1 The tree works for which consent is hereby granted shall not be carried out otherwise than in full accordance with all relevant content of BS 3998 (2010).
Reason: In the interests of tree health and safety.
- 2 The tree works for which consent is hereby granted shall be carried out and completed no later than one year from the date of this decision notice.
Reason: To control the timing of the works
