Dear Ms Lacey,

Planning Application APP/18/00450 condition 23 Land at Forty Acres Farm, Havant Road, Havant

Thank you for your consultation. I note that the applicant has submitted the post excavation assessment report which I would endorse to you. I am happy to confirm that the archaeological field work has been completed and I would not raise any objection to the discharge of condition 23.

The post excavation assessment has identified a few areas meriting analysis which will then be represented in a final report. This final report (or version of it) should also be published so that it is accessible to the public (This is one of the recommendations of the post excavation assessment report). The final report will need to be completed and submitted and provisions secured for the publication before the requirements of condition 24 have been addressed.

Yours sincerely
