

Dear Planning Team,

Thank you for consulting the Pollution team regarding the proposed change of use.

I have now considered this application and can advise that we require further information to fully consider this proposal. The applicant has submitted a statement of intension to intensify the existing use to include a 'beauty salon'. I would believe the addition will likely entail the use of odorous chemical from nail vanishing and other solvent that could cause smell. Should this be the case, the applicant should provide further information as to how they intend to control smell from having a detrimental effect on nearby residents. The term beauty salon, is somewhat ambiguous in the context of the proposed change of use. The applicant's statement fails to provide clarity in that regard or indeed consider the likelihood on residents.

Once the additional information and clarifications are provided, I will be happy to provide a revised consultation response =.

Kind Regards
