Good afternoon Ms. Miszewska,

Thank you for consulting Hampshire County Council's Minerals and Waste Policy Team on the below application.

Having reviewed the submitted Minerals Assessment, we agree that the limited extent of the potential brick clay reserve on site makes this site unviable for prior extraction.

As outlined in Section 6.0 of the Minerals Assessment, particular opportunities may lie in the recovery of mineral deposits uncovered during the preparation and construction phases of the project, for example through the excavation of footings or trenches for buildings, roads, landscaping, drainage and utility infrastructure associated with the development. The recovered mineral re-used on site, would encourage a reduction of excavation waste removed from site as well as inbound materials for construction uses associated with reduced costs.

In summary, we have no objections to the proposed development, and support the application of the principles of incidental extraction throughout the life of the development.

If you have any questions, please don't hesitate to contact us.

Kind regards

Andy Denton *BSc. (Hons) MSc.*
