

For the attention of Mr. J. Toole

Dear Sir

Further to my email of 15 March I have the following further objections:-

1. The proposed wrap-around canopy is unacceptably close to the boundary wall with 75 Havant Road.
2. The extensions & new wrap-around canopy constitute over intensive development resulting in a structure which is too 'bulky' for the land available.
3. Substantial increase in night-time light pollution particularly affecting the back garden at 73C and all the other tenants from the new lanterns, windows and bi-folding doors.
4. There are 9 tenanted residencies at 73&75 Havant Road which are all permanently occupied and this new proposed extension will negatively affect each and everyone of the tenants with increased light & noise pollution.
5. Good neighbourly relations. Failure to consult neighbours regarding their planned development has further exacerbated an already strained relationship with surrounding households. There is shared concern that additional exterior living space will cause further rowdy, late night parties where foul language cannot be excused by youthful exuberance.

With this, my previous email and the other affected neighbours' points in mind I trust the Planning Officers will take these comments into consideration.

I look forward to hearing from you.

Kind regards
