

Dear Mr Lakhan,

Compliance with Conditions 20/00990 Havant Thicket Winter Storage Reservoir, adjacent to Sir George Staunton Country Park, Reservoir and Pipe Line, Middle Park Way, Havant

Thank you for forwarding the Main Works written Scheme of Investigation and the Archaeological Management Plan both of which I am happy to endorse to you. Implementation of the provision of these schemes would address the archaeological concerns raised and secured by the archaeological conditions.

With regard to the request to discharge the archaeological conditions, I would defer to the position of the Planning Authority but recommend that you do not fully discharge the conditions unless you are happy that you can enforce the implementation of the submitted schemes of work post condition discharge. Otherwise you might consider partial discharge to the point that the scheme of work are satisfactory to the planning authority.

Yours sincerely

David Hopkins
County Archaeologist
