7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Appropriateness of design and impact on the character of the area
- (iii) Effect on neighbouring properties

(i) Principle of development

7.2 The application site is located within the defined urban area, therefore development is considered acceptable in principle subject to development management criteria.

(ii) Appropriateness of design and impact on the character of the area

7.3 The proposed works would have render on the ground floor and weather board cladding to first floor with concrete roof tiles to match the existing. This is considered to be of modern contemporary design which is considered to be of acceptable design.

7.4 The proposed works although large are considered to be acceptable within the context

of the main dwellinghouse. Due to the position of the property behind a row of houses it is not considered to have an adverse impact on the character of the area.

- 7.5 The design and appearance of the proposal is deemed appropriate in context to the main building and is therefore considered to be acceptable, meeting the requirements of Policy CS16 of the HBLP (Core strategy). It is considered that the scheme would not result in an adverse impact on the visual amenity of the locality.

(iii) Effect on neighbouring properties

- 7.6 Due to the location of the property the proposed works are not considered to have an adverse impact on any of the surrounding properties.
- 7.7 Consequently, it is considered that the proposal will not appear overbearing or lead to a loss of light, outlook or privacy and would have limited and acceptable impact on the properties immediately adjacent to the application site and the properties opposite or to the rear, meeting the requirements of Policy CS16 of the HBLP (Core Strategy). It is noted no letters of objection were received with respect to the scheme.

8 Conclusion

- 8.1 The proposed development is acceptable in principle, is appropriate in terms of design and its impact on the character of the area, and would have a limited and acceptable impact on the neighbouring properties. On this basis it is recommended for approval.

9 RECOMMENDATION:

That the Head of Place be authorised to **GRANT PERMISSION** for application APP/23/00473 subject to the following conditions

- 1 The development must be begun not later than three years beginning with the date of this permission.

Reason: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:
