Subject: Planning application APP/21/00294

Dear Mr Speller

We have already submitted an online objection to this proposal, but would like to send supporting images of the proposed site, along with images of the nearby industrial site.

We understand that Furniss Industrial site may have already been excluded, due to its distance from the nominal cell point in North Shore Road. However, at only 100m further away than the proposed Sinah Lane site, and with a potential for a greater mast height, due to the industrial location, I don't see how that argument carries any weight.

Please find attached the supporting images.

Proposed Site

Heading West

Not to scale. The garage is 4m tall.

Furniss Industrial Estate – Alternative Location

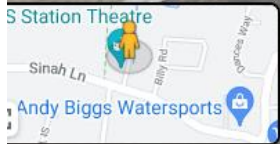

Heading North

Furniss Way
England

Google

Street View

From the bottom of Furniss Industrial Estate, looking North.

Heading South
