

33, Oaktree Drive,
Emsworth,

24th September 2021.

The Planning Office,
Havant Borough Council,
Havant.

Dear Sirs,

Re: Long Copse Lane Emsworth.

It is with deep regret that it has come to our notice that an application for the building of 210 houses in Long Copse Lane, Emsworth has been submitted to you.

There are numerous reasons that this application is totally unviable due to the following,

The site is on a narrow rural lane, single track in places, used by many walkers, cyclist and horse riders and is the approach to ancient woodlands with many wild species of trees and wildlife.

The congestion the extra traffic and pollution will be detrimental to the health of local residents, especially children and the elderly, who are exposed to more fumes then is healthy already and do not need more!

The situation with the local amenities i.e. Doctors, schools, hospitals in this area are already dire and are struggling to cope now without further population growth.

One of the most important aspect is the extra pressure on the disposal of waste water and sewage as it appears that Thornham Sewage works cannot take any more effluent than it has to cope with now.

Havant Borough Council had previously agreed that this site is UNSUITABLE FOR DEVELOPMENT and the only reason for putting it into the new local plan was to meet Government targets.....WHICH NOW NO LONGER APPLIES!!!

Will you please consider these and other peoples important objections to this planning application.

Yours faithfully,
