Photo 1 –View of gymnasium & garage nearing completion showing high level south-east facing windows to the mezzanine floor.

Photo 2 – View through windows standing at the far edge of the mezzanine floor (by 6ft adult). It should be noted that only the sky can be seen with no view whatsoever of the adjoining properties.

Photo 3 – Oblique view of windows from same position as Photo 2.

Photo 4 – View of mezzanine windows looking north-east and south east respectively.

Photo 5 – Comparative view at mezzanine level through window on north-east facing elevation looking back toward 17A North Shore Road on left of picture.

Photo 6 – View with back to south-east wall of mezzanine looking into the room. The only views into the building from outside would be the sloped ceiling and possibly the timber beam.
