

ENTRANCE DOORS

By looking at front door designs around the country we built a collection suitable for every kind of home, from traditional styles and those suitable for conservation, to sharper, more contemporary designs.

Whichever style you choose, security is assured with robust, multi-point locking mechanisms, featuring hook bolts and deadlock.

The options for personalisation are vast, with hundreds of traditional colour and stain finishes available, that include the RAL colour chart as well those complementary to the Farrow & Ball and Fired Earth ranges. There's also the option to vary the colour on the inside of the door, so that it can match your internal décor.

Ironmongery options include stylish handles, escutcheons, knockers, letter plates, knobs and many more in a range of finishes, and why not consider decorative glazing in a range of stained, patterned, leaded, sandblasted and etched designs.

All of our doors use multi-layered, warp and twist resistant timber throughout their construction, with high specification glazing fitted as a standard. Factory applied paint finishes ensure a long life with very low maintenance.
