RE PLANNING APPLIC Ref. GEN/21/0020

1/2/2021

Sirs,
My application relates to the replacement
of a front door to our House at the above
address.

Our House is within the area of Emsworth
(PO10 7AZ) and was built circa 1746. It is an
old fisherman's Cottage attached to neighbours at 16).

In keeping with the history and style/character of
the house, we are proposing to replace the front
door. This will be totally in keeping with
the history and status of the house. We are being
true to that history. The replacement door will
be made from excellent materials (see details & quote)
with the design totally in keeping with the
current door. It is basically a like for like
replacement and I believe it preserves and
enhances the appearance of the house as well as the
street scene.

Yours Sincerely

W Ryan

DR Bill Ryan
