Dear Sir or Madam,

I have heard that an application has been made to Havant Borough Council to fell the Conifer Tree at Norfolk House and I am in agreement with this for the reasons below.

I have been living in Norfolk House for over twenty one years. I now live on the ground floor near the tree but prior to this I lived on the first floor. I know that having such a large tree outside your window blocks your view and the light to your window, which my neighbours say is happening to them with the conifer tree. It is also worrying watching it sway so much when it is windy. I have also noticed how the tree is ruining our wall and making the pavement bumpy. Elderly people who walk along there with walkers, or in their walking chairs find it very difficult with the pavement being like this and it is a tripping hazard for even able bodied people.

I have dictated this letter as I struggle to write by hand anymore and so my Scheme Manager has typed it out for me.

Yours sincerely,

A handwritten signature in blue ink that reads 'M. Flloyd'.

Mavis Flloyd (Mrs)
