Dear Planning Team,

Thank you for consulting the Pollution Team on the above application.

I have reviewed the proposed lighting scheme with respect lux level and potential light spillage beyond the boundary of the site. Whilst I note the proposed lighting replacement is an upgrade to the existing lighting scheme, the layout plan with beam orientation and a schedule of equipment in the design (luminaire type, mounting height, aiming angles and luminaire profiles) satisfies the standard provided by The Institute of Lighting Professional (ILP).

The proposed lighting upgrade shall be installed, maintained, and operated in accordance with the approved details unless the Local Planning Authority gives its written consent to the variation. On the above basis, I have no adverse comments.

Regards
