Dear Madam,

Cowplain School, Hart Plain Avenue, Waterlooville, PO8 8RY

Proposed works to include erection/replacement to critical areas of perimeter security boundary comprising open-welded mesh fencing & associated vehicular/pedestrian entrance gates (including access control).

Thank you for reconsulting the Highway Authority on the above planning application.

It is noted that the new dropped kerb will be provided within the site grounds and therefore does not require separate approval for a Section 184 licence.

The spaces due to be lost as a result of the new perimeter fencing will now be reallocated to the existing car park located west of the school. The original quantum of parking will be retained, which the Highway Authority considers to be acceptable, subject to confirmation from Havant Borough Council in their capacity as local parking authority that they consider the provision to be suitable.

The applicant has clarified that the gates into the school will be opened in advance of the school day, remaining open until any after school activities have finished. The Highway Authority note that the gates will remain open during the school drop off and pick up times which is considered acceptable, subject to the imposition of a planning condition reflecting this requirement.

Recommendation

The Highway Authority raise no objection to the proposed development, subject to the following being covered by a suitably worded planning condition:

Director of Hampshire 2050
Gary Westbrook

Gate Operation

The gates onto Hart Plain Avenue are to remain open before and after the opening and closure of the school to prevent any queuing back onto the highway.

I trust that the above is clear. Should you have any queries, please do not hesitate to contact Chris Hirst on the number noted above.

Yours sincerely,

Chris Hirst

Director of Hampshire 2050
Gary Westbrook
