

APP/19/00427

Dear Planning Team,

Thank you for consulting the pollution team regarding the discharge of condition 5 (Construction Management Plan) from APP/19/00427. The applicant has submitted a Construction Environmental Management Plan (CEMP) which state sets out the measured to be implemented during the construction phase and associate mitigation measures.

It is noted that this is a live document and subject to being updated depending on construction requirements and where complaints may arise from vehicle and plant noise, it is expected that the main contractor review existing mitigation measure and apply additional measures to ensure that the residents and construction workers are protected from construction noise and environmental nuisance. On this basis, I am happy to recommend a partial discharge of this condition. Upon completion of the scheme, the applicant may apply to the local planning authority to discharge condition 5 in full.

Kind Regards

Chima Umunnakwe
