Dear Sir/Madam,

Proposal: Outline planning application - 210 dwellings.

Site: APP/21/00893: - Land north of Long Copse Lane, Emsworth, PO10 7UN.

Thank you for your letter dated 01/02/2023.

A Position Statement on managing new housing development in the Apuldram (Chichester) Wastewater Treatment Works (WwTW) Catchment. Major development (10+ dwellings) within Settlement Boundaries of Chichester, Fishbourne and Stockbridge – prior to approval applicants will need to demonstrate no net increase in flows to the sewer network of the Apuldram WwTW. Where development cannot demonstrate this, the Chichester Water Quality Group will support the Council in refusing planning permission or suggesting appropriate planning conditions to address the environmental concerns.

Should the Local Planning Authority be minded granting planning permission for this development, we request that the following condition is attached to the consent: Occupation of the development will not be permitted until the Local Planning Authority is satisfied that, in consultation with Southern Water, adequate wastewater treatment facilities exist to effectively drain the development. The development will be dependent on the provision of infrastructure for adequate wastewater conveyance and treatment to meet strict environmental standards. Reference should be made to the Thornham WwTW Position Statement and the remaining headroom tables found at chichester.gov.uk/article/29757/Supplementary-planning-documents-and-policy-guidance

All other comments in our response dated 28/09/2021 remain unchanged and valid.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
